Mid-Term Evaluation on the Improved Global Governance for Hunger Reduction programme

Annex 2: Legend of outcomes and outputs

Outcome 1: Strengthened Committee on Food Security (CFS) functioning in accordance with its renewed mandate	
Output 1.1:	Strengthened Civil Society Mechanism (CSM)
Output 1.2:	HLPE provides evidence based policy advice to CFS
Output 1.3:	Inclusion of regional priorities in CFS
Outcome 2: Food security decision making processes at global, regional and national levels use better information and common standards to prevent and/or mitigate the effects of food crises and to effectively address chronic hunger and malnutrition	
Output 2.1:	Improved methodologies, tools and guidance material for generating food security and hunger related statistics developed, disseminated and utilized
Output 2.2:	Improved and harmonized methodologies for strengthening food security and nutrition information
Sub-output 2.2.1:	*Food Security Information Network (FSIN)*
Sub-output 2.2.2:	*Resilience analysis*
Sub-output 2.2.3:	*Food security impact assessment*
Output 2.3:	Increased institutionalization of IPC at global and regional level with increased country level capacity to implement IPC
Output 2.4:	Guidance provided and capacity developed on integrating food security and nutrition indicators into large-scale information systems, national surveys and impact evaluations
Outcome 3: Use of improved instruments for food security and nutrition policy and programme design implementation	
Output 3.1:	Enhanced data, research and analyses to support food security decision making
Sub-output 3.1.1:	Addressing food insecurity in protracted crises
Sub-output 3.1.2:	*Integrating social protection and agriculture*
Sub-output 3.1.3:	*Volatility of food prices*
Sub-output 3.1.4:	*Web-based platform for mapping food security investments*
Sub-output 3.1.5:	*Regional networking and collaboration and coordination of country level activities*
Output 3.2:	Improved information for monitoring and analysing decisions regarding food security and agriculture policies
Output 3.3:	Improved tools for formulating and implementing food safety policies developed and adapted at country level
Output 3.4:	Improved tools and processes for strengthening capacity and assessing impact of integration of nutrition into agriculture and other sector interventions
Output 3.5:	Improved performance and gender equity dimension of producer organizations (POs) in targeted countries
Output 3.6:	Customized reference materials on the Voluntary Guidelines to improve governance of tenure of land, fisheries and forests and country policies and plans for secure tenure of natural resources
Output 3.7:	Tools to mainstream a Right to Food approach in social protection programmes developed, validated and customized
Output 3.8:	Improved guidelines, methods and training materials for sustainable crop production intensification developed and capacity development of users
Output 3.9:	Updated Livestock Emergency Guidelines and Standards and increased level of adoption
Outcome 4: Strengthened human and organizational capacities of global, regional and national organizations to generate and use relevant food security analysis	
Output 4.1:	New E-learning, associated training materials and strengthened collaborative arrangements with regional organizations, universities and international organizations
Output 4.2:	Communications, knowledge sharing, on-line forums and outreach related to food security, nutrition and agriculture
Output 4.3:	Increased capacities for food security programming in protracted crisis, emergency and recovery situations
Output 4.4:	Expanded and user-relevant training modules and guidance for agricultural investment planning and management prepared, disseminated and utilized
Sub-output 4.4.1:	*Technical tools for investment planning and mgt*
Sub-output 4.4.2:	*Social Analysis Guidelines*
Sub-output 4.4.3:	*Financial and Economic Analysis*
Output 4.5:	Technical tools to assess climate variability and climate change impact developed and adapted at national level in targeted countries
