COMMISSION ON GENETIC RESOURCES FOR FOOD AND AGRICULTURE

Item 3 of the Provisional Agenda

INTERGOVERNMENTAL TECHNICAL WORKING GROUP ON PLANT GENETIC RESOURCES FOR FOOD AND AGRICULTURE

Ninth Session

Rome, 25–27 July 2018

DRAFT REVISED REPORTING FORMAT FOR MONITORING THE IMPLEMENTATION OF THE SECOND GLOBAL PLAN OF ACTION FOR PLANT GENETIC RESOURCES FOR FOOD AND AGRICULTURE

*This document can be accessed using the Quick Response Code on this page;
an FAO initiative to minimize its environmental impact and promote greener communications.
Other documents can be consulted at www.fao.org*

ITWG-PGRFA 9

INTRODCUTION

1. According to the Second Global Plan of Action for Plant Genetic Resources for Food and Agriculture (Second GPA), overall progress on its implementation and the related follow-up processes will be monitored and guided by governments and other FAO Members through the Commission on Genetic Resources for Food and Agriculture (the Commission).
2. At its Fourteenth Regular Session, the Commission adopted 63 indicators for monitoring the implementation of the Second GPA.¹ It requested FAO to finalize a reporting format in order to apply the indicators and, based on the reporting experience and their usefulness, to revise them at a later stage.² The Reporting Format for monitoring the implementation of the Second GPA (Reporting Format) was made available at the Fifteenth Regular Session of the Commission³ and National Focal Points (NFPs) were invited to report to FAO through the WIEWS on-line reporting tool, which reflects the specifications given in the Reporting Format.
3. By the time the Commission met for its Sixteenth Regular Session, 43 countries had reported on their implementation of the Second GPA. Considering the need for a greater number of country reports in order to have a more comprehensive picture of the implementation of the Second GPA, the Commission decided to extend the deadline for reporting to 31 December 2017 and requested FAO to consult Commission Members and observers on options for simplifying the Reporting Format and to prepare a proposal for review by the Working Group.⁴ As of February 2018, 71 countries had reported on the implementation of the Second GPA through the WIEWS on-line reporting tool.
4. In line with the Commission's request, Commission Members and observers were invited to provide comments on the Reporting Format and the on-line reporting tool, as well as suggestions for their simplification. An expert workshop on *Reporting on the State of Plant Genetic Resources* was organized by FAO in November 2017 to gather additional inputs from NFPs, stakeholders and technical experts
5. This document provides the *Draft Revised Reporting Format for Monitoring the Implementation of the Second Global Plan of Action for Plant Genetic Resources for Food and Agriculture* (Revised Reporting Format).
6. In preparing the Revised Reporting Format, FAO took into consideration:
 - previous work, including the reporting format adopted by the Commission in 2004;⁵ and the experience gained in monitoring the implementation of the first GPA;
 - the experience gained in monitoring the implementation of the Second GPA by using the original Reporting Format; and
 - the need to maintain some continuity in reporting on the implementation of action taken for the conservation and sustainable use of PGRFA through a country-led participatory process.
7. The Revised Reporting Format guides NFPs in the assessment of progress in the conservation and sustainable use of plant genetic resources for food and agriculture (PGRFA). In addition, the Reporting Format may be used by the NFPs to gather valuable information from other stakeholders. Data gathered through it form the core part of country reporting for the preparation of the Third Report.
8. The Revised Reporting Format consists of 48 questions covering 58 indicators for monitoring the implementation of 18 Priority Activities of the Second GPA, taking into consideration the availability and accessibility of data. The reduction of 6 percent in the number of questions and 8 percent in the number of indicators compared to its former version will simplify the reporting task by NFPs without affecting the overall quality and depth of the resulting assessment of the status of PGRFA. It

acknowledges other existing data sources applying international standards and makes provision for them to be incorporated without additional workload.

9. With the aim to facilitate the task of the Working Group, main proposed changes are presented in track change mode in the Revised Reporting Format.

ANNEX I

DRAFT REVISED REPORTING FORMAT

The draft Revised Reporting Format lists 58 indicators for monitoring the implementation of the 18 Priority Activities of the Second Global Plan of Action for Plant Genetic Resources for Food and Agriculture (Second GPA) and 48 questions requesting information necessary for the elaboration of the indicators.

National Focal Points (NFPs) are requested to report whether an indicator is applicable, and if so, whether relevant data are available. In addition, in line with the three proposed higher-order composite indices for PGRFA,⁶ NFPs are invited to provide an expert judgment on the level of achievement for each indicator, referred to as the ‘NFP Rating’, on a scale from 1 to 8, where 1 is the “lowest degree of implementation or achievement” and 8 is the “highest degree of implementation or achievement”. Comments should also be provided to explain the rating submitted and provide additional information or clarifications.

Answers to the questions should be reported in tables whose structure (columns) is described after each question. Columns required for addressing the indicator(s) are displayed with a grey background. Some of the columns in the tables allow links to one of the five common tables referred to throughout the reporting format. To identify these columns the word ‘link’ plus the name of the common table follows the column description. The common tables are described in Annex II of this document. They provide a structured scheme for reporting complementary information which, although not required for the application of the proposed indicators, will be useful for analyses and for building a knowledge base on the implementation of the Second GPA.

The proposed revisions include the adjustment of the NFP Rating to a scale of 1-8 (as opposed to 1-9 in the original Reporting Format). Other proposed revisions include:

- i. A text box for each indicator to allow NFPs to provide a brief explanation of the rating;
- ii. All links to the common tables of the questions are now optional;
- iii. Links to four common tables, namely the Agreements, the Areas, the Cultivars and the Information systems tables, have been removed, together with their description in Annex II;
- iv. * symbol identifies columns proposed as mandatory (as opposed to optional in the current Reporting Format);
- v. # symbol identifies columns proposed to be optional (as opposed to mandatory in the current Reporting Format);
- vi. [] identifies columns as well as five indicators (1, 15, 18, 58 and 63) and three questions (1.1, 16.2 and 18.2) proposed for deletion;
- vii. The symbols ① and ② identify columns for which at least one column requires information.

With the aim to facilitate the task of the Working Group, the proposed revisions iii to vii, as well as other main content changes, are presented in track change mode.

The Revised Reporting Format, as agreed by the Commission, will be made available to NFPs through the on-line WIEWS Reporting tool. Furthermore, the on-line tool will include detailed explanations to a comprehensive list of frequently asked questions (FAQs) which have been gathered from users and experts.

NFPs should consult with other stakeholders, including non-governmental organizations and the private sector, in considering their responses especially for questions flagged with “(SH)”.

⁶ CGRFA-15/15/4.1 <http://www.fao.org/3/a-mm172e.pdf>

PRIORITY ACTIVITY 1: Surveying and inventorying plant genetic resources for food and agriculture

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| [1. Number of <i>in situ</i> (including on farm) surveys/inventories of PGRFA carried out] | YES/NO | YES/NO | 1-8 | |
| <p>[QUESTION</p> <p>1.1 Enter in the table below for each crop, crop group or plant group the number of <i>in situ</i> and on farm surveys/inventories of PGRFA carried out during the reporting period.</p> <p>COLUMN DESCRIPTION</p> <p>Crop/crop group/plant group</p> <p>Number of surveys/inventories conducted]</p> | | | | |

| INDICATORS | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 2. Number of PGRFA (<u>species/varieties</u>) surveyed/inventoried | YES/NO | YES/NO | 1-8 | |
| 3. Percentage of PGRFA (<u>species/varieties</u>) threatened⁷ out of those surveyed/inventoried | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>1.2 Indicate the species (<u>taxon name</u>) of crops, crop wild relatives and wild food plants surveyed/inventoried <i>in situ</i> (including on farm) during the reporting period and flag the species identified as threatened. For the crop species indicate the number of <u>farmers'</u> varieties/<u>landraces</u> surveyed/inventoried and those that have been identified as threatened.</p> <p>COLUMN DESCRIPTION</p> <p><u>PGRFA-species</u>Species surveyed/inventoried link:taxtab</p> <p>Threatened species</p> <p>• Yes •No</p> <p>Number of <u>farmers'</u> varieties/<u>landraces</u> surveyed/inventoried</p> <p>Number of <u>farmers'</u> varieties/<u>landraces</u> threatened</p> | | | | |

⁷ For the purpose of this Priority Activity, "threatened PGRFA" are considered any crops, crop varieties, crop wild relatives or wild food plants which are no longer cultivated or do no longer occur *in situ* in most of their previous areas of cultivation or occurrence.

PRIORITY ACTIVITY 2: Supporting on-farm management and improvement of plant genetic resources for food and agriculture

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|--|------------|----------------|---------------|----------------|
| 4. Number of farming communitiesfarmers involved in on-farm PGRFA management and improvement activities | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>2.1 Indicate any programme/project/activityprogrammes/projects/activities carried out during the reporting period addressing on-farm management and improvement of PGRFA, and list local farmer communities involved. Optionally, indicate the number of farmers involved and, <u>Optionally, indicate</u> the type of activities. (SH)</p> <p>COLUMN DESCRIPTION</p> <p>Name of on-farm management programme/project link:protab</p> <p>Starting date (YYYY/MM) link:protab</p> <p>Ending date (YYYY/MM) link:protab <u>#</u></p> <p>[Local farmer community(ies) involved]</p> <p>Number of farmers involved <u>*</u></p> <p>Activities include:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Pilot sites established in areas of high diversity <input type="checkbox"/> Pilot sites established in high risk areas <input type="checkbox"/> Assessment of farmers' knowledge <input type="checkbox"/> Characterization and evaluation of local varieties <input type="checkbox"/> Studies on local varieties population structure and dynamics <input type="checkbox"/> On-farm breeding <input type="checkbox"/> Seed multiplication and distribution of bred varieties <input type="checkbox"/> Assessment of local varieties utilization and management <input type="checkbox"/> Assessment of improved varieties utilization and management <input type="checkbox"/> Socio-economic assessment of PGRFA on-farm management and improvement <input type="checkbox"/> Environmental assessment of PGRFA on-farm management and improvement <p>Other activities</p> | | | | |

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 5. Percentage of cultivated land under farmers' varieties/landraces in areas of high diversity and/or risk | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>2.2 Indicate the areas of high diversity and/or risk in the country and, for each crop or crop group, the <u>estimated</u> percentage of cultivated land under farmers' varieties/landraces out of the total cultivated land <u>at the end or most recent year of the reporting period</u>. Optionally, indicate the reference(s) for the estimation.</p> <p>COLUMN DESCRIPTION</p> <p>Name of area of high diversity and risk link:aretab</p> <p>Name of crop/crop group</p> <p>Total area under the specified crop/crop group (ha)</p> <p>Percentage of cultivated land under farmers' varieties/landraces</p> <p>Year of estimation</p> <p>Reference link:reftab</p> | | | | |

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 6. Number of farmers' varieties/landraces delivered from national or local genebanks to farmers (either directly or through intermediaries) | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>2.3 Indicate for each crop or crop group, the number of farmers' varieties/landraces provided during the reporting period by national or local genebanks to farmers (either directly or through intermediaries).</p> <p>COLUMN DESCRIPTION</p> <p>Name of crop/crop group</p> <p>Number of distinct farmers' varieties/landraces delivered to farmers</p> | | | | |

PRIORITY ACTIVITY 3: Assisting farmers in disaster situations to restore crop systems

| INDICATORS | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 7. Number of households that received seeds for planting as an aid after disaster situations | YES/NO | YES/NO | 1-8 | |
| 8. Percentage of seed produced at the local level⁸ out of that made available through disaster response interventions | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>3.1 Indicate the name of the area affected by disasters, the type and date of the disaster, the name of the crop <u>or preferably the name of taxon</u> reintroduced, the amount and origin of seed distributed during the reporting period and the number of beneficiary households. Optionally, indicate the name of the variety(ies) reintroduced, reintroduction date, the seed relief methodology used, the source of the germplasm and type of assessment made to guide the intervention. (SH)</p> <p>COLUMN DESCRIPTION</p> <p>Name of disaster area link:aretab</p> <p>Type of disaster ①</p> <ul style="list-style-type: none"> • Flood • Fire • Typhoon/hurricane • Drought • Civil war • International war • Other (please specify) <p>Other types of disaster ①</p> <p>Date of disaster (YYYY/MM)</p> <p>Name of crop ②</p> <p>-Name of taxon link:taxtab ②</p> <p>Amount of seed distributed/made available</p> <p>Unit of measure</p> <ul style="list-style-type: none"> • Grams • Kilograms • Tons • Units <p>Percentage of the seed distributed/made available which was locally produced</p> <p>Number of households that benefitted from seed aid</p> <p>Variety(ies) reintroduced link:culstab</p> <p>Date of reintroduction (YYYY/MM)</p> <p>Seed aid provided</p> <ul style="list-style-type: none"> <input type="checkbox"/> Through direct seed distribution <input type="checkbox"/> Indirectly, through a market-based approach (e.g. voucher schemes, seed fairs) <input type="checkbox"/> Community seed multiplication <p>Source of germplasm/seed</p> <ul style="list-style-type: none"> • Community seed bank • National genebank • Regional genebank • International genebank • Farmers • Commercial agencies • Other (please specify) <p>Other sources of germplasm/seed</p> <p>Assessments carried out</p> <ul style="list-style-type: none"> <input type="checkbox"/> To characterize the functioning of seed systems at farmers' level <input type="checkbox"/> To evaluate the impact of a disaster on farmers' seed systems | | | | |

⁸ Produced in neighbouring areas with similar agro-ecological conditions.

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 9. Existence of disaster risk management policies for restoring crop systems that include seed security provisions | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>3.2 Indicate, <u>if by the end of the reporting period</u> any disaster risk management policy for restoring crop systems that include seed security provisions and is applied existed. Optionally, list it/them together with the year of publication.</p> <p>COLUMN DESCRIPTION</p> <p><u>Existence of policy</u></p> <p>• Existed • Did not exist</p> <p>Policy reference link:reftab #</p> <p>Year of publication link:reftab #</p> | | | | |

PRIORITY ACTIVITY 4: Promoting *in situ* conservation and management of crop wild relatives and wild food plants

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 10. Percentage of national <i>in situ</i> conservation sites with management plans addressing crop wild relatives and wild food plants | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>4.1 Indicate the number of national <i>in situ</i> conservation sites and the number of those that had management plans addressing crop wild relatives and wild food plants at the end of the reporting period.</p> <p>COLUMN DESCRIPTION</p> <p>Number of national <i>in situ</i> conservation sites</p> <p>Number of national <i>in situ</i> conservation sites with management plans addressing crop wild relatives and wild food plants</p> | | | | |

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 11. Number of actions with institutional support addressing <i>in situ</i> conservation and management of crop wild relatives and wild food plants | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>4.2 Indicate any programme/project/activity <u>programmes/projects/activities</u> carried out during the reporting period on <i>in situ</i> conservation and management of crop wild relatives and wild food plants, and the type of supporting institutions. Optionally, indicate the area covered, taxa identified and additional topics addressed. (SH)</p> <p>COLUMN DESCRIPTION</p> <p>Name of programme/project/activity link:protab</p> <p>Starting date (YYYY/MM) link:protab</p> <p>Ending date (YYYY/MM) link:protab #</p> <p>Implemented with support from</p> <ul style="list-style-type: none"> <input type="checkbox"/> National institution(s) <input type="checkbox"/> Private sector <input type="checkbox"/> Institution(s) from a foreign country <input type="checkbox"/> International research centre(s) <input type="checkbox"/> United Nations agency(ies) <input type="checkbox"/> Non Governmental Organization(s) <p>Name of conservation area link:aretab</p> <p>Type of area</p> <ul style="list-style-type: none"> <input type="checkbox"/> Protected <input type="checkbox"/> Restoration <p>Name of taxon link:taxtab</p> <p>Plant group</p> <ul style="list-style-type: none"> <input type="checkbox"/> Crop Wild Relatives <input type="checkbox"/> Wild Food Plants <p>Additional topics</p> <ul style="list-style-type: none"> <input type="checkbox"/> Implementation of management practices to maintain high level of genetic diversity <input type="checkbox"/> Involvement of local communities <input type="checkbox"/> Implementation of plans to encourage public participation <input type="checkbox"/> Arrangements for <i>ex situ</i> conservation of threatened and endangered populations | | | | |

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|--|------------|----------------|---------------|----------------|
| 12. Number of crop wild relatives and wild food plants species actively⁹ conserved <i>in situ</i> | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>4.3 Indicate the most recent estimation of the number of crop wild relatives, including all species from primary and secondary gene pools plus those from the tertiary gene pool previously used for breeding, and of wild food plants species actively conserved <i>in situ</i> in the country and the year of estimation. Optionally, indicate any reference to their estimation.</p> <p>COLUMN DESCRIPTION</p> <p>Plant group</p> <ul style="list-style-type: none"> • Crop Wild Relatives • Wild Food Plants • Crop Wild Relatives and Wild Food Plants <p>Estimated number of species actively conserved <i>in situ</i></p> <p>DateDYear of estimation (YYYY/MM)</p> <p>Reference(s) link:reftab</p> | | | | |

⁹ By “actively conserved” it is meant that the target species are specifically addressed by the management plan of the conservation area.

PRIORITY ACTIVITY 5: Supporting targeted collecting of plant genetic resources for food and agriculture

| INDICATORS | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|--|------------|----------------|---------------|----------------|
| 13. Existence of a strategy for identification of gaps in national genebank holdings and for targeted collecting missions to fill identified gaps | YES/NO | YES/NO | 1-8 | |
| 14. Number of crops conserved in the national genebank(s) that require targeted collecting | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>5.1 Indicate the crops conserved in the national genebank for which targeted collecting was required at the end of the reporting period and specify if a strategy existed for the identification of gaps in the crop collection and for undertaking targeted collecting missions to fill identified gaps that could not be filled by accessing other national or international genebanks. Optionally, indicate the gaps detected and the methods used to detect them. (SH)</p> <p>COLUMN DESCRIPTION</p> <p>Targeted collecting was required for the following crop</p> <p>A strategy</p> <ul style="list-style-type: none"> • Existed for the identification of gaps in the collection • Existed for the identification of gaps and for targeted collecting missions • Did not exist <p>Gaps detected</p> <ul style="list-style-type: none"> <input type="checkbox"/> Incomplete coverage of targeted taxa <input type="checkbox"/> Incomplete geographical coverage <input type="checkbox"/> Missing known farmers' varieties/landraces <input type="checkbox"/> Missing historical varieties <input type="checkbox"/> Missing crop wild relatives <input type="checkbox"/> Incomplete biotic and abiotic stress resistance coverage <p>Other gaps detected</p> <p>Methods used to detect gaps</p> <ul style="list-style-type: none"> <input type="checkbox"/> Comparison of stored material against organization mandate <input type="checkbox"/> Comparison of stored material against historical references <input type="checkbox"/> Comparison of stored material against geographical references <p>Other methods</p> | | | | |

| INDICATORS | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| [15. Number of targeted collecting missions in the country] | YES/NO | YES/NO | 1-8 | |
| 16. Number of samples resulting from targeted collecting missions in the country | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>5.2 Indicate any the number of samples collected during targeted collecting missionmissions carried out in the country during the reporting period, providing details of the crops, taxa and number of accessions collected, the name of taxon. Optionally, indicate the numbername of the collected accessions for which long-term conservation has been securedcrop and the geographical area(s) where the mission took place. (SH)</p> <p>COLUMN DESCRIPTION</p> <p>[Name of collecting mission link:protab]</p> <p>[Starting date (YYYY/MM) link:protab]</p> <p>[Ending date (YYYY/MM) link:protab #]</p> <p>Name of collected crop #</p> <p>Name of collected taxon link:taxtab</p> <p>Number of collected accessionssamples</p> <p>[Number of collected accessions secured in long-term conservation]</p> <p>Name of collecting area(s) link:aretab</p> | | | | |

PRIORITY ACTIVITY 6: Sustaining and expanding *ex situ* conservation of germplasm

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 17. Trend in annual capacity for sustaining <i>ex situ</i> collections | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>6.1 Indicate for each year of the reporting period, the capacity of the national programme for sustaining <i>ex situ</i> collectionsgenebank(s) in the country in terms of human and financial resources and infrastructure expressed as a percentage of the capacity in 2010.</p> <p>COLUMN DESCRIPTION</p> <p>Year</p> <p>Human resources capacity (100% in 2010)</p> <p>Financial resources (recurrent costs) capacity (100% in 2010)</p> <p>Infrastructure (capital costs) capacity (100% in 2010)</p> | | | | |

|---|------------|----------------|---------------|----------------|
| [18. Number of crops conserved <i>ex situ</i> under medium or long-term conditions] | YES/NO | YES/NO | 1-8 | |
| 19. Number of species conserved <i>ex situ</i> under medium or long-term conditions | YES/NO | YES/NO | 1-8 | |
| 20. Number of accessions conserved <i>ex situ</i> under medium or long-term conditions (SDG indicator 2.5.1) | YES/NO | YES/NO | 1-8 | |
| 21. Percentage of <i>ex situ</i> accessions safety duplicated | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>6.2 Indicate the accessions conserved <i>ex situ</i> under medium- or long-term conditions at the end of the reporting period, including the holding institute WIEWS code, accession number, name of taxon, genebank(s) holding safety duplications and type of storage. Optionally, indicate the name of crop, acquisition date, country of origin, biological status, latitude and longitude of collecting site, collecting/acquisition source and status under the Multilateral System of the International Treaty on PGRFA. (SH)</p> <p><u>Note: Question 6.2 provides information for the Sustainable Development Goal indicator 2.5.1. Countries already publishing <i>ex situ</i> collections data that are compliant with the requirements of indicator 2.5.1 have the alternative option of communicating to FAO the Internet address for downloading the data.</u></p> <p>COLUMN DESCRIPTION</p> <p>Holding institute code¹⁰ link:instab</p> <p>Accession number¹¹</p> <p>Name of taxon¹² link:taxtab</p> <p>Name of crop¹³ #</p> <p>Acquisition date (YYYY/MM)¹⁴ #</p> <p>Country of origin¹⁵ #</p> <p>Biological status of accession¹⁶ #</p> <p>• 100) Wild • 200) Weedy • 300) Traditional cultivar/Landrace • 400) Breeding/research material • 500) Advanced/Improved cultivar • 600) GMO</p> <p>Genebank(s) holding safety duplications¹⁷ link:instab</p> <p>Latitude of collecting site (decimal degrees format)¹⁸</p> <p>Longitude of collecting site (decimal degrees format)¹⁹</p> <p>Collecting/acquisition source²⁰</p> <p>• 10) Wild habitat • 20) Farm or cultivated habitat • 30) Market or shop • 40) Institute, Experimental station, Research organization, Genebank • 50) Seed company • 60) Weedy, disturbed or ruderal habitat</p> <p>Type of germplasm storage²¹ *</p> <p><input type="checkbox"/> 12) Seed medium-term</p> <p><input type="checkbox"/> 13) Seed long-term</p> <p><input type="checkbox"/> 20) Field</p> <p><input type="checkbox"/> 30) In vitro</p> <p><input type="checkbox"/> 40) Cryopreservation</p> <p><input type="checkbox"/> 50) DNA</p> <p>Status under the Multilateral System²²</p> <p>• Not included • Included</p> | | | | |

¹⁰ It corresponds to descriptor 1 (INSTCODE) of FAO/Bioversity Multi-Crop Passport Descriptors (MCPD) V.2

¹¹ It corresponds to descriptor 2 (ACCENUMB) of FAO/Bioversity MCPD V.2

¹² The full taxon name without authority

PRIORITY ACTIVITY 7: Regenerating and multiplying *ex situ* accessions

| INDICATORS | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|--|------------|----------------|---------------|----------------|
| 22. Percentage of <i>ex situ</i> accessions in need of regeneration for which a budget for regeneration does not exist | YES/NO | YES/NO | 1-8 | |
| 23. Number of <i>ex situ</i> accessions regenerated and/or multiplied | YES/NO | YES/NO | 1-8 | |
| 24. Percentage of <i>ex situ</i> accessions in need of regeneration | YES/NO | YES/NO | 1-8 | |
| <p>QUESTION</p> <p>7.1 Indicate for each crop or, crop group <u>or preferably for each taxon</u> conserved <i>ex situ</i> by the national genebank(s), the number of accessions regenerated and/or multiplied during the reporting period, the number of accessions requiring regeneration and the number of these for which a budget for regeneration was not available during the reporting period. (SH)²³</p> <p>COLUMN DESCRIPTION</p> <p>Name of crop/crop group ①</p> <p>N</p> <p>Name of taxon link:taxtab ①</p> <p>Total number of accessions in the national genebank(s)</p> <p>Number of accessions regenerated and/or multiplied</p> <p>Number of accessions in need of regeneration</p> <p>Number of accessions in need of regeneration without a budget for regeneration</p> | | | | |

¹³ It corresponds to descriptor 10 (CROPNAME) of FAO/Bioversity MCPD V.2

¹⁴ It corresponds to descriptor 12 (ACQDATE) of FAO/Bioversity MCPD V.2

¹⁵ It corresponds to descriptor 13 (ORIGCTY) of FAO/Bioversity MCPD V.2

¹⁶ It corresponds to descriptor 19 (SAMPSTAT) of FAO/Bioversity MCPD V.2

¹⁷ It corresponds to descriptor 25 (DUPLSITE) of FAO/Bioversity MCPD V.2

¹⁸ It corresponds to descriptor 15.1 (DECLATITUDE) of FAO/Bioversity MCPD V.2

¹⁹ It corresponds to descriptor 15.3 (DECLONGITUDE) of FAO/Bioversity MCPD V.2

²⁰ It corresponds to descriptor 21 (COLLSRC) of FAO/Bioversity MCPD V.2

²¹ It corresponds to descriptor 26 (STORAGE) of FAO/Bioversity MCPD V.2

²² It corresponds to descriptor 27 (MLSSTAT) of FAO/Bioversity MCPD V.2

²³ It is assumed that for determining regeneration needs a quality testing of the material conserved, especially viability testing for orthodox seeds, is carried out periodically by the national gene bank(s).

PRIORITY ACTIVITY 8: Expanding the characterization, evaluation and further development of specific collection sub-sets to facilitate use

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 25. Average number of morphological traits characterized per accession for the <i>ex situ</i> collections | YES/NO | YES/NO | 1-8 | |
| <p>QUESTIONS</p> <p>8.1 Indicate the accessions characterized and conserved <i>ex situ</i> under medium- or long-term conditions and the number of morphological traits characterized. (SH) Note: Accessions listed under question 6.2 should also be listed here.</p> <p>COLUMN DESCRIPTION</p> <p> Holding institute code²⁴ link:instab</p> <p> Accession number²⁵</p> <p> Name of taxon²⁶ link:taxtab</p> <p> [Name of crop²⁷]</p> <p> Number of morphological traits characterized</p> | | | | |

| INDICATOR | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |

PRIORITY ACTIVITY 9: Supporting plant breeding, genetic enhancement and base-broadening efforts

| INDICATORS | APPLICABLE | DATA AVAILABLE | RATING BY NFP | COMMENT BY NFP |
|---|------------|----------------|---------------|----------------|
| 30. Number of crops with active public pre-breeding and breeding programmes | YES/NO | YES/NO | 1-8 | |
| 31. Number of crops with active private pre-breeding and breeding programmes | YES/NO | YES/NO | 1-8 | |
| 32. Number of breeding activities oriented to small scale farmers, villages or traditional communities <u>and organic farming</u> | YES/NO | YES/NO | 1-8 | |
| <p>QUESTIONS</p> <p>9.1 Indicate any public and/or private crop breeding programme which has taxa that have been active used during the reporting period, and the taxon and crop addressed, indicating those in breeding programmes. Specify whether these programmes were public and/or private and indicate if they were specifically oriented to small scale farmers, villages or communities that use traditional communities, farmers' varieties/landraces, and/or to organic farming. Optionally, also indicate the name of crop, the improvement targets in terms of trait(s) or characteristic(s), agroecological zone(s) and/or farming system(s) the improvement applies to, providing an estimate of the importance of the improvement in terms of food security, and detail germplasm source(s), the type of participatory breeding activities conducted, the number of professional staff involved, output(s) achieved so far and year of achievement. (SH)</p> <p>COLUMN DESCRIPTION</p> <p>[Name of programme link:protab]</p> <p>[Starting date (YYYY/MM) link:protab]</p> <p>[Ending date (YYYY/MM) link:protab]</p> <p><u>Name of taxon link:taxtab</u></p> <p>Name of crop #</p> <p>Programme supported by</p> <ul style="list-style-type: none"> • Public • Private • Public and private <p>Breeding activities oriented to</p> <ul style="list-style-type: none"> <input type="checkbox"/> Small scale farmers <input type="checkbox"/> Villages or communities that use traditional farmers' varieties/landraces <input type="checkbox"/> <u>Organic farming</u> <p>Trait(s)/characteristic(s) addressed</p> <p>Agroecological zone(s)/Farming system(s) (the improvement applies to)</p> <p>Estimated importance of the improvement in terms of food security for the specified agroecological zone/farming system</p> <ul style="list-style-type: none"> • Limited • Medium • High <p>Germplasm source(s)</p> <ul style="list-style-type: none"> <input type="checkbox"/> Local genebank <input type="checkbox"/> National genebank <input type="checkbox"/> Regional/International network <input type="checkbox"/> CGIAR genebank <input type="checkbox"/> Public organization from developed country <input type="checkbox"/> Public organization from developing country <input type="checkbox"/> Private sector <p>Participatory breeding involved farmers in:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Setting breeding priorities <input type="checkbox"/> Selecting from fixed lines or finished varieties (participatory varietal selection) <input type="checkbox"/> Selecting from segregating populations <input type="checkbox"/> Making crosses and/or determining parents <p>Number of professional staff involved</p> <p>Output produced</p> <p>[Year of output production]</p> | | | | |

9.2 Indicate ~~public and/or private~~taxa that have been targeted by genetic enhancement (including base-broadening) programme which has been active the genetic base programmes during the reporting period ~~and targeted taxon and crop~~. Specify whether these programmes were public and/or private. Optionally, ~~also~~ specify the name of crop, type of and rationale for the activities undertaken, details of the starting materials and methods for assessing diversity in them, and type of -farmers' involvement. (SH)

COLUMN DESCRIPTION

[Name of programme link:protab]

[Starting date (YYYY/MM) link:protab]

[Ending date (YYYY/MM) link:protab]

~~Name of taxon link:taxtab~~

Name of taxon link:taxtab

Name of crop #

Programme supported by

• Public • Private • Public and private

Type of activity

- Genetic enhancement by introgression for specific traits
- Population improvement through incorporation or base broadening

Other type of activity

Rationale for activity

- Poor gain in breeding programme
- Specific trait not available in current breeding materials
- Evidence of narrow genetic base

Other rationale for activity

Assessment of genetic diversity was made through

- Molecular markers
- Pedigree studies
- Other methods
- No assessment made

Starting materials

- Local varieties/landraces
- Improved varieties in use in the country
- Exotic varieties
- Wild relatives

Farmers involvement

- Setting priorities
- Implementing programme

ANNEX II

REPORTING FORMAT: COMMON TABLES

Annex II contains a description of five common tables. Each table is used to store detailed information about the different entities, namely, organizations, contact persons, programmes/projects/activities, taxa and published/unpublished references, which can be referred to in the answers to several questions throughout the Revised Reporting Format.

Information available at FAO on the above the entities are made available to countries through the on-line WIEWS reporting tool.

The 'ORGANIZATIONS table' (instab) contains contact information on institutes, organizations and networks, as well as departments or subordinate structures within them. The column 'parent organization' is used to build hierarchies among the table entries.

COLUMN DESCRIPTION

Name of organization

Organization acronym

WIEWS instcode

Parent organization link:instab

Address

ZIP code

City

Country

Telephone

Fax

Email address

WWW address

Latitude (decimal degrees format)

Longitude (decimal degrees format)

Organization authority status

• Governmental • Non-Governmental • International • Regional • Parastatal • Private • United Nations • CGIAR

Organization role categories

- Genebank (long term collections)
- Genebank (medium term collections)
- Genebank (short term collections)
- Botanical garden
- Breeder
- Network
- Community
- Educational
- Seed producer
- Seed supplier
- Farmer community

- Research
- Extensionist
- Publisher
- Laboratory
- Administration/Policy

The 'CONTACT PERSONS table' (pertab) contains contact information on persons, including phone and email address. Persons are usually associated with organizations in the organization table, where the mail address is stored.

COLUMN DESCRIPTION

Last name

Title

First name

Position

Country of residence

Email address

Telephone

Organization link:instab

The 'PROJECTS table' (protab) collects data on programmes, projects, activities, plans, courses, etc. A flag column indicates the context and serves for analysis and filtering entries that belong to different priority activity areas.

COLUMN DESCRIPTION

Name

Acronym/code

Type

• Programme • Project • Activity • Workshop • Seminar • Symposium • Academic course • Short course • Not applicable

Status

• Proposed • Approved • On-going • Completed

Starting date (YYYY/MM)

Ending date (YYYY/MM)

Parent Project/Activity link:protab

Description

Co-ordinator link:pertab

Co-ordinating organization link:instab

Participants link:pertab

Participating organizations link:instab

Participating countries

Associated networks link:instab

Budget amount

Budget currency units

Budget type

• Annual • Total

(continued on next page)

Categories of funding sources

- Coordinating organization
- Participating organizations
- National Programme
- Associated networks

Funding sources link:instab

Scope

- Institutional • Local • National • Regional • International

Second GPA priority activities addressed

- Surveying and inventorying PGRFA
- Supporting on-farm management and improvement of PGRFA
- Assisting farmers in disaster situations
- Promoting *in situ* conservation of crop wild relatives and wild food plants
- Supporting targeted collecting of PGRFA
- Sustaining and expanding *ex situ* conservation
- Regenerating and multiplying *ex situ* accessions
- Expanding the characterization, evaluation and specific collection sub-sets
- Supporting plant breeding, genetic enhancement and base-broadening efforts
- Promoting diversification of crops and broadening crop diversity for sustainable agriculture
- Promoting development and commercialization of all varieties, primarily farmers' varieties/landraces and underutilized species
- Supporting seed production and distribution
- Building and strengthening national programmes
- Promoting and strengthening networks for PGRFA
- Constructing and strengthening comprehensive information systems for PGRFA
- Developing and strengthening systems for safeguarding diversity and minimizing erosion of PGRFA
- Building and strengthening human resource capacity
- Promoting and strengthening public awareness of the importance of PGRFA

The 'TAXA table' (taxtab) contains data on scientific plant names and authorities.

COLUMN DESCRIPTION

Name of taxon

Name of authority

Botanical family

Taxonomic status

Preferred taxon name link:taxtab

The 'REFERENCES table' (reftab) is used to collect data on references. The structure follows the BibTex standard in order to allow easier processing with existing BibTex tools, e.g. to produce lists of references in standard format. A reference can be an electronic document, such as a web-site on the Internet.
