The report has been prepared by Dr Hyacinth G. Napiloy and Dr Imelda J. Santos of the Government of the Philippines and finalized by Dr Masami Takeuchi, Food Safety Officer of FAO. The workshop was organized under the FAO project "Support for capacity building for international food safety and implementation in ASEAN countries (GCP/RAS/295/JPN)" and FAO gratefully acknowledge the generous contribution of the Government of Japan for this important capacity development activities in the Philippines.

Executive summary

The national training workshop on Enhancing Effective Participation in Codex Activities in the Philippines was conceptualized as a Way Forward after the participation of DA and DOH personnel who are NCO members to the FAO Regional Training Workshop on Enhancing Effective Participation in Codex Activities in ASEAN Countries that was held on 9-11 January 2017 in Bangkok, Thailand. The Training Workshop on Enhancing Effective Participation in Codex Activities was held on 30 August to 1 September 2017 in Sequoia Hotel, Quezon City, Philippines. The activity was jointly organized by the National Codex Organization (NCO) and the Department of Agriculture-Bureau of Animal Industry (DA-BAI) in collaboration with the Food and Agriculture Organization of the United Nations-Regional Office for Asia and the Pacific (FAORAP).

The objectives of the training workshop were to provide participants with:

- enhanced understanding of the impact of Codex standards on international trade, structure and function of CAC, up-to-date information of recent Codex meetings, and food safety risk analysis
- opportunity to share knowledge and experience on current national Codex activities
- training on development of national/regional positions through mock sessions to enhance participants’ capacity to contribute effectively to Codex work

A total of forty nine (49) participants consisting of personnel from the food safety regulatory agencies of the Department of Agriculture and Department of Health and the private sector actively participated in the three-day training workshop. Three (3) ASEAN participants from Lao PDR, Myanmar and Viet Nam served as observers so that they will have an idea as to how a national Codex training can be organized in their respective countries. Philippine participants to the Codex training are also active members of different National Codex Organization Technical Committee and Sub-Committees.

Comparative analysis of the result of the pre and post training examination revealed significant improvement in the knowledge and understanding of the participants on the subject matters. Further, 96% of the participants gave an excellent rating as to the quality of the workshop in general. Based on the mentioned parameters, the following initially identified objectives were met: (1) Enhanced knowledge on structure and function of CAC, latest meeting of CAC and impact of Codex standards on international trade (2) Enhanced understanding of risk analysis within the Codex framework and the role of scientific expert bodies (3) Participants trained on development of national/regional positions and (4) developed participants with the capacity and commitment to contribute effectively to Codex work.

Participants were appreciative of the mock session as this provided new NCO members and incoming Sub-Committee Chairs with the knowledge and experience on how Codex plenary sessions are conducted. Majority of the participants suggested that a similar mock session trainings be conducted on how to prepare written comments and/or country positions and how to prepare new work proposals. Similar trainings were also suggested for members of the DA SPS Focal Group as well as to the NCO DOH FDA Sub-Committee Chairs and members.
Background
The national training workshop on Enhancing Effective Participation in Codex Activities in the Philippines was conceptualized as a Way Forward after the participation of DA and DOH personnel who are NCO members to the FAO Regional Training Workshop on Enhancing Effective Participation in Codex Activities in ASEAN Countries that was held on 9-11 January 2017 in Bangkok, Thailand.

The Training Workshop on Enhancing Effective Participation in Codex Activities was held on 30 August to 1 September 2017 in Sequoia Hotel, Quezon City, Philippines. The activity was jointly organized by the National Codex Organization (NCO) and the Department of Agriculture-Bureau of Animal Industry (DA-BAI) in collaboration with the Food and Agriculture Organization of the United Nations- Regional Office for Asia and the Pacific (FAORAP).
Dr Imelda Santos, Chairperson of the Sub-Committee on Import and Export Inspection System (SCFICS) served as the Focal Person for the organization of the training workshop. Efficient secretariat and logistical support for the training activity were provided by the DA-BAI and the NCO- Management Support Office (MSO).

Highlights of the training workshop

1st day (30 August 2017)
The Training Workshop on Enhancing Effective Participation in Codex Activities commenced with a ceremony in the morning of 30 August 2017. The DA-Undersecretary for Policy, Planning, Program Development, R&D and Regulations, Dr Segfredo R. Serrano gave the welcome address on behalf of the DA Secretary. Mr Jose Luis Fernandez, the FAO Representative in the Philippines delivered an inspirational message. After the Opening Ceremony, the participants were asked to answer the pre-test questionnaire to gauge the level of knowledge and understanding of the participants on Codex activities. The participants who got the highest score in the pre-test were given small tokens as incentives/rewards. Dr Imelda J. Santos, Chairperson of the NCO-SCFICS opened the workshop proper with a session on Overview, Objectives and Methods of the training course. Annex 1 shows the Program of Activities.

A total of forty nine (49) participants consisting of personnel from the food safety regulatory agencies of the Department of Agriculture and Department of Health and the private sector actively participated in the three-day training workshop. Three (3) ASEAN participants from Lao PDR, Myanmar and Viet Nam served as observers so that they will have an idea as to how a national Codex training can be organized in their respective countries. Philippine participants to the Codex training are also active members of different National Codex Organization Technical Committee and Sub-Committees. The list of participants to the training workshop can be seen on Annex 4.

Dr Masami Takeuchi of FAORAP presented the History of Codex and its objectives, its Structure and Functions as well as the Codex Committees and subsidiary bodies. She then discussed the WTO/SPS and TBT and its relationship to Codex and the impact of Codex standards on international trade. She also gave an overview of Codex meetings in 2016 and early 2017. During the afternoon session, Dr Takeuchi continued with an Overview of Risk Analysis. The following topics were covered in her presentation: Process and principles of Risk Analysis in Codex, Steps of Risk assessment (Hazard Identification, Hazard Characterization, Exposure Assessment and Risk Characterization), Risk Management, Risk Communication and the Role of scientific expert bodies.
Dr. Amelia Tejada, Former Director of National Food Authority-Food Development Council and former FAO Secretary of JMPR presented the risk analysis works in the Philippines. She talked on the historical overview, implementation and experiences such as practices, strengths and weaknesses as well as way forward and requirements as per the Philippine Food Safety Act.

The ASEAN Observers from Lao PDR, Myanmar and Viet Nam represented by Dr. Vansilalom Viengxay, Dr. Kyaw Hnin Nandar and Dr. Nguyen Thi Minh Ha respectively, shared their experiences as to the current status of Codex implementation in their respective countries.

Ms Lara Navarro, Officer-in-Charge of the DA-Bureau of Agriculture and Fisheries Standards presented the Philippine Food Safety Act and Codex.

2nd day (31 August 2017)

Dr. Ma. Victoria Pinion, Chief of Product Research and Standard Development Division, Center for Food Regulation and Research of the Food and Drug Administration-Department of Health, presented the Current Process and Status of Adopting and Implementing Codex Standards in the Philippines for Processed Food. She also discussed how to develop new work proposals for setting Codex standards as well as how to generate project document/discussion paper and regional position/written comments. She briefly talked about the process of Codex plenary session.

Dr. Marvin Vicente, Chair of the National Codex Organization Technical Committee further discussed how to develop effective national positions and written comments for Codex participation. Ms Kaye Adao of DA-Policy Research Service taught the participants how to access the Codex Alimentarius Commission website and explained how to prepare for attendance to the CAC Committee meetings. Ms Maribel Marges, DA Consultant briefed the participants on how to prepare for the mock session. She instructed the participants to group themselves into five (Country A, B, C, D, and Observer) in preparation for the group exercises of preparing national/regional positions. The participants were then tasked to nominate the head of delegation for each group/country.

The groups were given specific tasks to prepare their respective country positions and develop proposals for new work in preparation for the mock plenary session. They were also instructed to conduct informal meetings between delegations during break time as part of simulating real Codex committee meetings.

3rd day (1 September 2017)

During the first two days of the training workshop, the venue was arranged in a conference room set up. For the mock session activity, the room was arranged to simulate the conduct of the plenary session. The Mock Plenary Session on JOINT FAO/WHO FOOD STANDARDS PROGRAMME Codex Committee on Fish and Fishery Products Thirty fifth Session was chaired by Dr. Marvin Vicente as Codex Chair, Dr. Masami Takeuchi as Codex Secretariat, Dr. Imelda Santos as Host Country, Dr. Pinion as FAO representative and Dr. Alicia Lustre as WHO representative. Each group was represented by a head of delegation. The set-up of the mock session as to the seating of delegates and observers replicated the real Codex committee meetings.
At the end of the mock session, Dr Takeuchi expressed her appreciation for the warm involvement and participative attitude of the body during the mock session. The rest of the Codex Session panelists provided their comments and insights as to how well the participants carried out the activities of the mock session. The panelists also gave pointers on how to prepare for the session and how to articulate the country’s comments on the agenda issues.

For the post workshop activity, the participants were instructed to answer the post-test questionnaire and training feedback evaluation form. Annexes 2 and 3 show the results of the pre-test and post-test and the training evaluation respectively. The training workshop was officially concluded with the distribution of certificates of appreciation and tokens for resource speakers and certificates of participation and USB files for the attendees.

**Conclusion and recommendations**

Comparative analysis of the result of the pre and post training examination revealed significant improvement in the knowledge and understanding of the participants on the subject matters. Further, 96% of the participants gave an excellent rating as to the quality of the workshop in general. Based on the mentioned parameters, the following initially identified objectives were met: (1)Enhanced knowledge on structure and function of CAC, latest meeting of CAC and impact
of Codex standards on international trade (2) Enhanced understanding of risk analysis within the Codex framework and the role of scientific expert bodies (3) Participants trained on development of national/regional positions and (4) developed participants with the capacity and commitment to contribute effectively to Codex work.

Participants were appreciative of the mock session as this provided new NCO members and incoming Sub-Committee Chairs with the knowledge and experience on how Codex plenary sessions are conducted. Majority of the participants suggested that a similar mock session trainings be conducted on how to prepare written comments and/or country positions and how to prepare new work proposals. Similar trainings were also suggested for members of the DA SPS Focal Group as well as to the NCO DOH FDA Sub-Committee Chairs and members.

Annex 3. Evaluation on effectiveness of the training workshop

| Name ________________________________ |
| Agency ________________________________ |

1. How do you evaluate the quality of the training workshop in general?
   - Excellent  34
   - Very good 4
   - Adequate

2. Was the subject of the training workshop useful and relevant to your needs?
   - Very useful 38
   - Somewhat useful
   - Not useful (Please explain why not)

3. Were the materials and handouts useful and the information relevant?
   - Very useful 36
   - Somewhat useful
   - Not useful (Please explain why not) 2
     __no hand outs were given__________________________

4. Were the technical inputs by experts useful and relevant?
   - Very useful 38
   - Somewhat useful
   - Not useful (Please explain why not)

5. Did you find the Mock Training sessions relevant and useful?
   - Very useful 38
   - Somewhat useful
   - Not useful (Please explain why not)

6. Any other recommendations/comments/suggestions for improvements
   - Presentation training topics and group work are relevant to training topics and objectives
   - This training is very useful, informative and relevant for us in preparation for the actual committee meetings
   - Mock training activity is very useful especially to new upcoming chairs. The jitters and apprehensions can be experienced in the activity and therefore be a good learning benchmark on what to do, how to react and be effective in the codex session. Although this is why I believe it was quite scary and fun at the same time. More mocking time scenarios!
   - Case sample for the mock session and the course were well chosen. This is important to the success of the workshop
   - The work session serves as exposure of new participants
   - I appreciate that FAO develop this kind of training for us to have an overview of what is really happening in the plenary
   - Congratulations! Let’s do it again in other ASEAN countries!
   - Case of study when country wants to propose the committee to consider a new work and MRL of pesticide in foods
Case of study when the exporter meets Codex standards on specific product but the importer does not accept and requires more strict to this product of exporter
Training on interpretative guide for Codex standard
I wish there were more time to discuss how to write position papers
Having a mock session on writing country positions
The guidance of the organizing committee was very useful. Perhaps in the mock session others will play the role of delegates who violate the rules during sessions so we will have other ideas on what to look out for
I hope that similar training will be conducted for SPS FG
Trainings like this should also be conducted for other international representations
Experienced members should be exempted from pre-test
Suggest to do on a regular basis since there is a new batch of delegates/chairmanship
To continue having this seminar for the other participants to learn and contribute to its success
The training workshop is very useful in any future work in our codex SC thus similar trainings in the future is very welcome
I appreciate BAI and FAO in initiating this kind of training workshop, I suggest more of this kind of training on capability building
I wish that this training workshop will be a continuous practice to further enhance our knowledge about codex meeting and equip our delegates with proper knowledge on handling and exerting our positions on the international codex session for the benefit and productivity of our country’s interest
The organizers did a great job in arranging this training. The mock session showed what new chair-co-chair could expect in actual session. We hope for future trainings like this everyone can attend so that chairs & co-chairs can be familiar with each other
More trainings/workshops/engagements in practice makes perfect
Training like this is really of help to the participants and should be conducted often
The general participation to the training workshop is strongly skewed to DA SC chairs. I believe the DOH-FDA SC chairs would gain so much from such training workshop. I strongly recommend that a similar workshop be considered for the FDA-DOH, FDA/NCO members
Official representatives should also be considered to undergo similar trainings
It would be better if handouts of presentation have been given at the start of the training for easier taking of notes. Other than this, the training workshop has been a great help for me understanding the operation of codex as staff of MSO
To provide the participants with hand-outs of the topics being discussed so as to concentrate in what the speaker is saying rather than writing what is being said
Hand-outs should be given to the participants
Prepare course outline and make sure expectations are clear to the speakers. Provide government based compensation.
Suggest that a printer be available in the session hall so we can print important materials
Annex 4. List of participants

ASEAN OBSERVERS

LAO PDR
1. **Ms. Vansilalom Viengxay**  
   Director of Food Control Division  
   Ministry of Health - Food and Drug Department
