Foreword

The basic texts of the General Fisheries Commission for the Mediterranean (GFCM) of the Food and Agriculture Organization are the institutional instruments that define its mandate, vision, functions and strategy. They include the Agreement for the establishment of the General Fisheries Commission for the Mediterranean as well as its rules of procedures and financial regulations.

Since its creation as a Council in 1949, the GFCM has amended its basic texts several times. The agreement, in particular, underwent four amendments: in 1963, 1976, 1997 and, lastly, in 2014. The rules of procedure and the financial regulations were last amended in 2015.

The current version of the basic texts is the result of a process initiated in 2007, when the twenty-seventh session of the FAO Committee on Fisheries agreed that a performance review be undertaken by all regional fisheries management organizations with a view to strengthening their role and enhancing their performance. This need stemmed from the increasing responsibilities, obligations and importance of regional fisheries management organizations. Accordingly, the GFCM launched, in 2009, a performance review over a three-year period of consultations. This work led to a fully-fledged amendment process which resulted in the adoption, by consensus, of the fourth amendment to the Agreement for the establishment of the General Fisheries Commission for the Mediterranean, at the thirty-eighth annual session of the Commission on 20 May 2014.

The basic texts of the GFCM can be considered a blueprint for the promotion of the sustainable use and conservation of living marine resources in an economically, socially and environmentally responsible manner in the Mediterranean and the Black Sea, in line with FAO’s efforts towards food security and taking into account the principles enshrined in the FAO Code of Conduct for Responsible Fisheries and the FAO Blue Growth Initiative.
PART 1
The agreement

Preamble
The Contracting Parties,

Further recalling the Agreement for the Implementation of the Provisions of the Law of the Sea of 10 December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks of 4 December 1995, the Agreement to promote Compliance with International Conservation and Management Measures by Fishing Vessels on the High Seas of 24 November 1993, as well as other relevant international instruments concerning the conservation and management of living marine resources,

Taking into account the Code of Conduct for Responsible Fisheries adopted by the Food and Agriculture Organization Conference at its Twenty-eighth Session on 31 October 1995, and related instruments adopted by the Food and Agriculture Organization Conference,

Having a mutual interest in the development and the proper utilization of the living marine resources in the Mediterranean and the Black Sea (hereafter referred to as the “area of application”),

Acknowledging the specificities of the different subregions in the area of application,

Determined to ensure the long-term conservation and sustainable use of living marine resources and marine ecosystems in the area of application,

Recognizing the economic, social and nutritional benefits deriving from the sustainable use of living marine resources in the area of application,

Further recognizing that, under international law, States are required to cooperate in the conservation and management of living marine resources and the protection of their ecosystems,
Affirming that responsible aquaculture reduces stress on living marine resources and plays an important role in the promotion and better use of aquatic living resources, including food security,

Conscious of the need to avoid adverse impacts on the marine environment, preserve biodiversity and minimize the risk of long-term or irreversible effects of the use and exploitation of living marine resources,

Mindful that effective conservation and management must be based on the best scientific information available and on the application of the precautionary approach,

Aware of the importance of coastal fishing communities and of the need to involve fishers, relevant professional organizations and civil society organizations in decision-making processes,

Determined to cooperate effectively and take action to prevent, deter and eliminate illegal, unreported and unregulated fishing,

Recognizing the special requirements of developing States to assist them to participate effectively in the conservation, management and farming of living marine resources,

Convinced that the conservation and sustainable use of the living marine resources in the area of application and the protection of the marine ecosystems in which those resources occur plays a major role in the context of blue growth and sustainable development,

Recognizing the need to establish for these purposes the General Fisheries Commission for the Mediterranean (whose acronym shall be “GFCM”) within the framework of the Food and Agriculture Organization of the United Nations, under Article XIV of its Constitution,

Have agreed as follows:

Participation in meetings of the Commission by alternates, experts, and advisers shall not entail the right to vote, except in the case of an alternate who is acting in the place of a delegate during his absence.

2. Subject to paragraph 3, each Contracting Party shall have one vote. Decisions of the Commission shall be taken by a majority of the votes cast, except as otherwise provided by this Agreement. A majority of the total membership of the Commission shall constitute a quorum.

4. A regional economic integration organization that is a Contracting Party to the Commission shall exercise its membership rights on an alternative basis with its Member States that are Contracting Parties to the Commission in the areas of their respective competence. Nothing in this paragraph shall prevent a regional economic integration organization that is a Contracting Party to the Commission or its Member States that are Contracting Parties to the Commission from making a single declaration for the purposes of this paragraph, which declaration shall remain in force for questions and agenda items to be considered at all subsequent meetings subject to such exceptions or modifications as may be indicated before any individual meeting.

7. In cases where an agenda item covers both matters in respect of which competence has been transferred to the regional economic integration organization and matters which lie within the competence of its Member States, both the regional economic integration organization and its Member States may participate in the discussions. In such cases the meeting, in arriving at its decisions, shall take into account only the intervention of the Contracting Party which has the right to vote.
8. For the purpose of determining a quorum of any meeting of the Commission, the delegation of a regional economic integration organization that is a Contracting Party to the Commission shall be counted to the extent that it is entitled to vote in the meeting in respect of which the quorum is sought.

The Commission may, nevertheless, permit such a Contracting Party to vote if it is satisfied that the failure to pay was due to conditions beyond the control of the Contracting Party but in no case shall it extend the right to vote beyond a further two calendar years.
Article 12: Expenses

2. Each Contracting Party shall transpose, as appropriate, adopted recommendations into national laws, regulations or appropriate legal instruments of the regional economic integration organization. They shall report annually to the Commission indicating how they have implemented and/or transposed the recommendations, including providing such relevant legislative documents in connection with these recommendations as may be required by the Commission and information on the monitoring and control of their fisheries. The Commission shall use this information to assess whether the recommendations are uniformly implemented.

3. Each Contracting Party shall take measures and cooperate to ensure that their duties as flag States and port States are fulfilled in accordance with relevant international instruments to which it is a party and with recommendations adopted by the Commission.

4. The Commission, through a process leading to the identification of cases of non-compliance, will address Contracting Parties which fail to comply with recommendations adopted by the Commission with a view to resolving situations of non-compliance.

5. The Commission shall define through its Rules of Procedure appropriate measures which may be taken by the Commission when Contracting Parties are identified as being in prolonged and unjustified non-compliance with its recommendations.

3. Any dispute concerning the interpretation or application of this Agreement not resolved under paragraphs 19.1 and 19.2 may, with the consent in each case of all parties to the dispute, be referred for settlement to arbitration. The results of the arbitration procedure shall be binding upon the parties.

4. In cases where the dispute is referred to arbitration, the arbitral tribunal shall be constituted as provided in the Annex to this Agreement. The Annex forms an integral part of this Agreement.

The rights and obligations of any Contracting Party that has not accepted an amendment involving additional obligations shall continue to be governed by the provisions of this Agreement as they stood prior to the amendment.

3. Amendments to this Agreement shall be reported to the Council of the Organization which shall have the power to disallow any amendment which it finds to be inconsistent with the objectives and purposes of the Organization or the provisions of the Constitution of the Organization. If the Council of the Organization considers it desirable, it may refer the amendment to the Conference of the Organization which shall have the same power.

Contracting Parties whose relevant competent authorities have not replied within three months from the date of the notification shall be deemed to have accepted the reservation. Failing such approval, the nation or regional economic integration organization making the reservation shall not become a party to this Agreement. The Director-General of the Organization shall notify forthwith all Contracting Parties of any reservations.
Article 24: Entry into force

This Agreement shall enter into force as from the date of receipt of the fifth instrument of acceptance.

Article 25: Reservations

Annex
Scheme for the calculation of contributions

The modalities for determining the scale of contribution are calculated in accordance with the following formula.

Factors for calculation which should be applicable to the GFCM autonomous budget once the amended Agreement has entered into force:

Membership: a fixed proportion of the budget; equally shared amongst Contracting Parties;

Wealth component: the wealth of the Contracting Party; and

Catch component: the total capture fishery and aquaculture production of the Contracting Party in the area of application.

Weight to be given to each factor (as percentage of total autonomous budget):

Membership: 10 percent

Wealth component: 35 percent

Catch component: 55 percent

Measurement of the factors:

Membership: all Contracting Parties

Wealth component: according to per caput GDP (measured in US $ as published by the World Bank); members falling into four categories: below US$ 1 000; between US$ 1 000 and US$ 9 999; between US$ 10 000 and US$ 29 999 and US$ 30 000 and above. The first category is exempt from the wealth component. The second pays one share; the third pays 10 shares, and the fourth category pays 20 shares. Exceptions are made for countries with a total GDP below US$ 5 thousand million (1997) to which a GDP category one step below is applied. Some countries are brought down to the first category and, as a result, are exempt from the wealth component (as long as their annual GDP remains below US$ 5 thousand million).
Catch component: The catch/production figures to be used are those published by FAO in the STATLANT 37A DATABASE. A three-year average is calculated using the period ending two years prior to that for which the budget will apply. Due to different values of small pelagic and other species, the “GFCM catch” for the purpose of determining the scale of contribution is calculated by applying a factor of 4 to all fish produced by Contracting Parties in the Mediterranean and in the Black Sea, except for small pelagics.
The basic texts of the General Fisheries Commission for the Mediterranean (GFCM) of the Food and Agriculture Organization of the United Nations (FAO) are the legal instruments that define its mandate, objectives and functions. These texts include the “Agreement for the establishment of the General Fisheries Commission for the Mediterranean” as well as the rules of procedures and financial regulations of the GFCM. Since its creation as a Council in 1949, the GFCM has amended its basic texts several times. The agreement, in particular, underwent four amendments: in 1963, 1976, 1997 and, lastly, in 2014. The rules of procedure and the financial regulations were last amended in 2015.
