

Information management and knowledge sharing

Course: Experience capitalization for continuous learning

This course introduces the methodology of experience capitalization and offers practical tools. Experience capitalization is a systematic, interactive and participatory process through which an experience is analyzed and documented. This creates knowledge, which can be shared and used to generate change.

Who is the course for?

The course is designed for professionals involved in reflecting upon, learning from and sharing the lessons of their work. Therefore team leaders, managers, project and programme technical staff, monitoring and evaluation officers, communication professionals, knowledge management and knowledge sharing professionals.

Up to 10 hours of learning, depending on learning needs

Available in English

You will learn about

- How to facilitate and plan an experience capitalization process
- How to implement an experience capitalization process step by step
- How to adopt, adapt, scale up and mainstream experience capitalization
