## **Notes**

33

## **Foreword**

The Market and Policy Analysis of Raw Materials, Horticulture and Tropical Products Team (RAMHOT), provides economic data and analysis on major agricultural raw materials, horticultural and tropical products. Commodities covered under the Team include, bananas and tropical fruits, citrus fruits, cotton, hard fibres (abaca, coir and sisal), hides and skins, jute, kenaf and allied fibres, sugar, and tea.

The Team also undertakes market reviews, outlook appraisals and projections, and provides assistance to developing countries in designing and implementing national policies for those agricultural commodities which enter into international trade.

The tables contained in this document bring together governments' replies to the Group's latest questionnaires, supplemented by other data available to the Secretariat at 31 December, 2016. It is prepared by the Trade and Markets Division, FAO, and it is available at the following FAO website:

<http://www.fao.org/economic/futurefibres/resources2/en/>
