The Statistical Capacity Assessment for the FAO-relevant SDG indicators was conducted in early 2019 to provide insights about member countries’ national statistical systems regarding their capacity to monitor and report the 21 SDG indicators under FAO custodianship.

**Information provided by: Statistics Portugal**

A national committee responsible for the coordination of SDG implementation and reporting has not been established by law or administrative order.

No information on the national coordinator for SDG monitoring.

SDG indicators without focal points: 6 out of 21
