In September 2015, the 193 UN Member States commit to 17 SDGs, including:

**ZERO HUNGER BY 2030**

- Increase investment in agriculture. Build market infrastructure and improve public goods to help raise productivity and rural incomes.
- SDGs

**BY THE YEAR 2030 WORLD POPULATION IS PROJECTED TO GROW AROUND**

8.3 billion

- Over 830 million people are hungry today

**MALNUTRITION AFFECTS 1 IN 3 PEOPLE AND ALL NATIONS**

- Improve the way food commodity markets function, and limit extreme food price volatility.
- SDGs

**A LARGE SHARE OF FOOD PRODUCED IS LOST OR WASTED**

- Establish social protection systems to improve food access, such as school food and cash transfers. Without nourishment, humans cannot learn, or lead healthy and productive lives.
- SDGs

**OVER 820 MILLION PEOPLE ARE HUNGRY TODAY**

- Overweight and obesity is rising

**MALNUTRITION AFFECTS 1 IN 3 PEOPLE AND ALL NATIONS**

- Ensure rural women have equal access to resources, income opportunities, and education.
- SDGs

**GLOBALIZATION IS INCREASING DEMAND FOR INFORMATION, TECHNOLOGY AND PARTICIPATION**

- Build institutions and mechanisms that provide international norms, standards and data, and promote cooperation among countries and partners.
- SDGs

**INFECTIONS ARE INCREASING BETWEEN HUMANS AND ANIMALS**

- Adopt holistic approaches, such as agro-ecology, agroforestry, climate-smart and conservation agriculture.
- SDGs

**OUTBREAKS OF TRANSBOUNDARY PESTS AND DISEASES ARE GROWING ALARMINGLY**

- Build the resilience of rural communities to withstand shocks, crises and disasters. Tackle disease migration.
- SDGs

**CLIMATE CHANGE IS JEOPIARDIZING CROP AND LIVESTOCK PRODUCTION AND FISH STOCKS**

- Sustainably manage forests, oceans, water, land and soil – and promote an ecosystem approach to extract greater agricultural yield with fewer inputs.
- SDGs

**DEMAND FOR FOOD WILL GROW**

- Make food systems more efficient, inclusive and resilient.
- SDGs

**RISING FOOD DEMAND IS INCREASING COMPETITION FOR NATURAL RESOURCES**

- Transform agriculture so that it contributes to fossil fuel reduction.
- SDGs

**CONFLICTS AND CRISES ARE BECOMING MORE FREQUENTLY PROTRACTED**

- Develop pro-poor growth strategies in rural areas, focusing on small-scale farmers and the people left furthest behind.
- SDGs

**INEQUALITIES ARE INCREASING BOTH WITHIN AND BETWEEN COUNTRIES**

- Establish best practices in preventing diseases and anti-microbial resistance that threaten plant and animal production, public health and trade.
- SDGs

**GENDER EQUALITY IS A PRECONDITION FOR PROSPERITY**

- By 2030

**INCREASING GHG EMISSIONS ARE EXACERBATING CLIMATE CHANGE**

- Adopt holistic approaches, such as agro-ecology, agroforestry, climate-smart and conservation agriculture.
- SDGs

**GLOBALIZATION IS INCREASING DEMAND**

- Build institutions and mechanisms that provide international norms, standards and data, and promote cooperation among countries and partners.
- SDGs

**2030**

- Increase investment in agriculture. Build market infrastructure and improve public goods to help raise productivity and rural incomes.
- SDGs

- Sustainably manage forests, oceans, water, land and soil – and promote an ecosystem approach to extract greater agricultural yield with fewer inputs.
- SDGs

- Make food systems more efficient, inclusive and resilient.
- SDGs

- Transform agriculture so that it contributes to fossil fuel reduction.
- SDGs

- Adopt holistic approaches, such as agro-ecology, agroforestry, climate-smart and conservation agriculture.
- SDGs

- Build the resilience of rural communities to withstand shocks, crises and disasters. Tackle disease migration.
- SDGs

- Establish best practices in preventing diseases and anti-microbial resistance that threaten plant and animal production, public health and trade.
- SDGs

- Address root causes of inequality. Give poor people access to health, education, land, finance and new technology.
- SDGs

- Ensure rural women have equal access to resources, income opportunities, and education.
- SDGs

- Adopt holistic approaches, such as agro-ecology, agroforestry, climate-smart and conservation agriculture.
- SDGs

- Build the resilience of rural communities to withstand shocks, crises and disasters. Tackle disease migration.
- SDGs

- Establish best practices in preventing diseases and anti-microbial resistance that threaten plant and animal production, public health and trade.
- SDGs

- Address root causes of inequality. Give poor people access to health, education, land, finance and new technology.
- SDGs

- Ensure rural women have equal access to resources, income opportunities, and education.
- SDGs

- Adopt holistic approaches, such as agro-ecology, agroforestry, climate-smart and conservation agriculture.
- SDGs

- Build the resilience of rural communities to withstand shocks, crises and disasters. Tackle disease migration.
- SDGs

- Establish best practices in preventing diseases and anti-microbial resistance that threaten plant and animal production, public health and trade.
- SDGs

- Address root causes of inequality. Give poor people access to health, education, land, finance and new technology.
- SDGs

- Ensure rural women have equal access to resources, income opportunities, and education.
- SDGs

- Adopt holistic approaches, such as agro-ecology, agroforestry, climate-smart and conservation agriculture.
- SDGs

- Build the resilience of rural communities to withstand shocks, crises and disasters. Tackle disease migration.
- SDGs
