CONFERENCE

Thirty-sixth Session

Rome, 18-23 November 2009

REPORT OF THE CONFERENCE OF FAO

Paragraph 53 on page 9 should be replaced with the following:

53. The integration of agriculture into national statistical systems was considered a very important component of the Strategy. For this reason, the Conference stressed the necessity of close collaboration between the ministries of agriculture and the national statistics offices, and noted with satisfaction that these two government agencies were closely associated in the formulation of the Global Strategy. It was recommended that, whenever possible, rural and agricultural statistics used by FAO be collected from relevant national authorities.

The following table should be inserted after Conference Resolution 10/2009 on page 54:
