EXECUTIVE SUMMARY

- The Indian Ocean Tuna Commission (IOTC) is responsible for the management of 16 tuna and tuna-like species in the Indian Ocean. IOTC is an Article XIV body formed under the FAO Constitution comprising 31 member countries.
- Article VI.7 of the IOTC Agreement states that “The Commission may adopt and amend, as required, the Financial Regulations of the Commission by a two-thirds majority of its Members, which Financial Regulations shall be consistent with the principles embodied in the Financial Regulations of FAO. The Financial Regulations and amendments thereto shall be reported to the Finance Committee of FAO which shall have the power to disallow them if it finds that they are inconsistent with the principles embodied in the Financial Regulations of FAO.”
- In June 2019, 24 of the 31 Commission Members (more than two-thirds) attended the 23rd Session of the IOTC and adopted the below amended Financial Regulations, and requested the IOTC Chairperson to forward these to the Finance Committee of FAO for approval.

GUIDANCE SOUGHT FROM THE FINANCE COMMITTEE

- The Committee is requested to review the proposed amendments to the Financial Regulations of the IOTC and make such comments and observations thereon as appropriate.

Draft Advice

Background

1. The Indian Ocean Tuna Commission (IOTC) is responsible for the management of 16 tuna and tuna-like species in the Indian ocean. The IOTC, which comprises 31 member countries, is an Article XIV body formed under the FAO Constitution.

2. The 15th Session of the Standing Committee on Administration and Finance (SCAF) recommended that a working group be formed to begin work to replace the current IOTC Financial Regulations, in accordance with the recommendations from the 2nd IOTC Performance Review.

3. Article VI.7 of the IOTC Agreement states that “The Commission may adopt and amend, as required, the Financial Regulations of the Commission by a two-thirds majority of its Members, which Financial Regulations shall be consistent with the principles embodied in the Financial Regulations of FAO. The Financial Regulations and amendments thereto shall be reported to the Finance Committee of FAO which shall have the power to disallow them if it finds that they are inconsistent with the principles embodied in the Financial Regulations of FAO.”

4. In June 2019, 24 of the 31 Commission Members (more than two-thirds) attended the 23rd Session of the IOTC and adopted the amended Financial Regulations presented in Annex I, and requested the IOTC Chairperson to forward these to the Finance Committee of FAO for approval.

5. The IOTC has strengthened the Financial Regulations to provide more transparency and include practices used by other Regional Fisheries Management Organisations (RFMOs). Some of the critical proposed framework amendments for the IOTC Financial Regulation are summarized below.

Working Capital

6. All tuna RFMOs except for the IOTC have substantial capital reserves, and most, through the adoption of sound business practices, have regulations that determine how much must be held in the operating accounts for the organizations. The Secretariat proposed in 2015 to establish such a capital working fund of USD 1 million.

7. Due mainly to delays in recruitment of staff in the IOTC Secretariat, IOTC has accumulated a surplus of over USD 1 million in the last few years. It is proposed that this surplus be transferred into a working capital fund. This fund would provide a buffer against assessed contributions that are not paid and ensure the continuity of the Organization’s operations. It can be noted that, although currently a working capital fund is not established within IOTC, the surplus appropriations have been used for this purpose, as a buffer. With the establishment of a Working Capital fund, this process will be more transparent, and the Commission can be more strategic in the ways these funds can be used. The fund also could be used to support donor assisted projects that are in line with the Commission’s recommendations. The establishment of the working capital fund should not be interpreted, however, as a means of avoiding payment of assessed contributions.

Mid-term review

8. As the Commission currently meets in the middle of the calendar/financial year, a mid-term review of the agreed budget for that year is proposed to improve transparency of the budget process and of the accountancy practices of the Commission. While the total budget (and therefore contributions) for a particular year would not change, a mid-term review of the annual budget will enable the Secretariat to propose adjustments and or changes to the approved budget, as well as inform the Contracting Parties of any changes that may have been implemented in response to unforeseen circumstances, in accordance with the relevant Financial Regulations.
9. It is often difficult to estimate certain budget lines such as meetings and travel due to not knowing where meetings will be held at the time when the budget is proposed. Currently, the Commission adopts a total annual budget, and the Secretariat has the flexibility of transferring from one item to another within the budget. It is proposed to limit this transfer so that the Commission may authorize changes to the budget after the mid-term review, taking into account any changes proposed by the Secretariat. This would improve the transparency of budget expenditure and ensure that the budget expenditure is in line with the recommendation of the Commission.
