	Departure	

IPMEurope

Future of IPMEurope: topics for discussion and open questions (more details see also Option 3 paper)

Management structure:

- Will the current structure be maintained (Chair, Vice Chair, Steering Committee)?
- Who (and how) will take over (reduced) functions of Secretariat (i.e. liaison with EC; coordination and information dissemination activities; website maintenance)
- Who will be responsible for coordinating future proposal writing process?

Thematic focus and activities:

- What will be IPMEurope's activities?
- Meetings?

Further open questions to be clarified:

IPMEurope CD-Rom: It was agreed to produce a final CD-Rom giving an overview on what is IPMEurope and in particular to provide a compilation with all essential documents produced by or through IPMEurope. A draft version of the CD-Rom will be presented during the ANM.

- Questions:
- Who will keep the CD-Rom (several copies)?
 - Will the CD-Rom be handed out free of charge upon request?

Website: It was decided by the SC to keep the website. The IPMEurope website is currently hosted by GTZ. However, with the end of the secretariat in June 06, the website would need to be transferred to another IPMEurope member. Who would take over the website?

IPD: The IPD is currently accessible online via the IPMEurope website. It is located on the server of WIS International, who are contracted by IPMEurope to maintain the database. However, it was decided at the last ANM not to maintain and update the database anymore.

- Questions:
- Should the online version IPD be kept as it is? Then it would need to be transferred to another institution since IPMEurope can not pay for WIS anymore. Who would take over the IPD? (**Should be decided in advance.**)
 - WIS will produce a CD-Rom of the IPD. Which IPMEurope member will keep the CD-Rom?
 - Will the CD-Rom be handed out free of charge upon request?
