LIVESTOCK
IN A CHANGING LANDSCAPE

Launch of Publication and Way Forward Workshop
4-5 March 2010 • Swiss College of Agriculture, Zollikofen, Switzerland
Thursday 4 March 2010
Presentation and launch of publication

**AGENDA**

**TIME**

13h00 – 14h00 Registration

14h00 – 14h15 Welcome address

14h15 – 14h35 Introduction to Livestock in a Changing Landscape

14h35 – 14h55 Drivers of change

14h55 – 15h15 Consequences: environment, health and social

15h15 – 15h35 Responses to livestock in a changing landscape

15h35 – 15h50 PLENARY DISCUSSION

15h50 – 16h20 Coffee Break

16h20 – 16h35 Regional perspective: cross-cutting observations and conclusions

16h35 – 16h50 Regional perspective, Latin America

16h50 – 17h05 Regional perspective, West Africa

17h05 – 17h20 Regional perspective, Denmark – EU

17h20 – 17h35 Regional perspective, India

17h35 – 17h50 PLENARY DISCUSSION

18h00 Publication launch and reception

**SPEAKERS**

Chair: Jimmy Smith, The World Bank

Alfred Buess, Director, SHL

Ruth Naber, Deputy Head Global Cooperation, SDC

Shirley Tarawali, International Livestock Research Institute

Fritz Schneider, Swiss College of Agriculture

Harold Mooney, Stanford University, USA

Henning Steinfield, Food and Agriculture Organization

Pierre Gerber, Food and Agriculture Organization

Cheikh Ly, FAO Regional Office for Africa

Søren S. Kjær, Ministry of Environment, Denmark

V. Padmakumar, ILRI (India) and C.T. Chacko

Samuel Jutzi, Food and Agriculture Organization

Friday 5 March 2010
Way Forward Workshop

**AGENDA**

**TIME**

08h30 – 08h40 Introduction to workshop

08h40 – 09h00 The livestock and public goods nexus

09h00 – 09h20 Livestock and environment: priorities and cost effective opportunities

09h20 – 09h40 One health

09h40 – 10h00 Coffee Break

10h00 – 10h20 Institutional innovation for livestock and livelihoods

10h20 – 10h40 Research agenda: current state and future research needs

10h40 – 11h00 PLENARY DISCUSSION

11h00 – 13h15 Working Groups: break-out sessions

Working Group 1: Environmental Issues

Chair: Harald Menzi, Swiss College of Agriculture

Working Group 2: Access and animal health

Chair: Jakob Zinsstag, Swiss Tropical and Public Health Institute

Working Group 3: Livestock and livelihoods

Chair: Fritz Schneider, Swiss College of Agriculture

13h15 – 14h30 Lunch Break

14h30 – 15h30 Reporting back to plenary (10 minutes each)

Working Group 1: Environmental issues

Working Group 2: Human and animal health

Working Group 3: Livestock and livelihoods

Speaker to be designated within each group

15h30 – 16h00 PLENARY DISCUSSION

16h00 – 16h20 Synthesis of discussion

16h20 – 16h40 Coffee Break

16h40 – 17h40 PLENARY DISCUSSION: CHARTING THE WAY FORWARD

DEBATE ON A CONCRETE “PORTFOLIO FOR ACTION”

17h40 – 18h00 Summary and future action

18h00 – 18h15 Workshop closure

**SPEAKERS**

Chair: Niek Schelling, Dutch Ministry of Agriculture

Henning Steinfield, Food and Agriculture Organization

Jimmy Smith, The World Bank

Pierre Gerber, Food and Agriculture Organization

Jan Stienenberg, Food and Agriculture Organization

Jens Dijkman, Food and Agriculture Organization

Harold Mooney, Stanford University, USA

Chair: Jimmy Smith, The World Bank
Livestock in a Changing Landscape is the result of an integrated collaboration involving a large community of experts from around the world in the planning, writing, and review of information and ideas. This initiative is an inter-institutional collaboration between the Food and Agriculture Organization of the United Nations (FAO); International Livestock Research Institute (ILRI); FAO’s Livestock, Environment and Development Initiative (LEAD); the Scientific Committee on Problems of the Environment (SCOPE); the Swiss College of Agriculture (SHL) of the Bern University of Applied Sciences, Switzerland; the Centre de cooperation internationale en recherche agronomique pour le développement (CIRAD); and the Woods Institute for the Environment at Stanford University.

The goal of this effort has been to achieve an integrated view of the global livestock sector, its drivers, consequences, and responses to issues of concerns, alongside with current practices and possible future scenarios. This effort has sought to understand the opportunities enhancing the positive trends of this fundamental endeavour as well as providing insights to the negative impacts of environmental, health, and social aspects.

In order to achieve this overview, many academic, technical, and socioeconomic experts have engaged to consider the multiple dimensions of the livestock industry, working together and learning from one another, to produce a comprehensive assessment on the livestock sector.

This joint inter-institutional collaboration has culminated in two publications: a technical and scientific volume “Livestock in a Changing Landscape, Volume 1: Drivers, Consequences and Responses” and a case study volume “Livestock in a Changing Landscape, Volume 2: Experiences and Regional Perspectives” which seek to provide a detailed, comprehensive and integrated look at the global livestock sector.
