Commercial Farms and Cooperatives – Commercial Farms

Distribution of Commercial Forestry Farms

For the purpose of the 2001 census a commercial forestry farm was defined as having a land area of at least 10 hectares. According to the census, there were 1,668 commercial forestry farms throughout Vietnam, distributed among the 8 regions as follows: 40 farms in the Red River Delta; 660 in the Northeast; 114 in the Central Highlands; 113 in the Southeast; 29 in the Northwest; 483 in North Central Coast; 121 in the South Central Coast; and 108 in the Mekong River Delta. Average numbers per commune are less than 0.2, nationally. The largest numbers are scattered mostly throughout Dac Lac Province of the Central Highlands and some localities in the Southeast region.
