

AGRICULTURE

Indicator	Definition	Data source	Web page access source	French term
Total land area	Total area excluding area under inland water bodies. The definition of inland water bodies generally includes major rivers and lakes. Data are expressed in 1000 hectares (Ha).	Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Land Use	http://faostat.fao.org/site/377/default.aspx#ancor	Superficie totale des terres
Agricultural area	<p>Agricultural area includes arable land, permanent crops and permanent pastures and is expressed as a percentage of the total land area.</p> <ul style="list-style-type: none"> - arable land: land under temporary crops (double-cropped areas are counted only once), temporary meadows for mowing or pasture, land under market and kitchen gardens and land temporarily fallow (less than five years). The abandoned land resulting from shifting cultivation is not included in this category. Data for arable land are not meant to indicate the amount of land that is potentially cultivable; - permanent crops: land cultivated with crops that occupy the land for long periods and need not be replanted after each harvest, such as cocoa, coffee and rubber; this category includes land under flowering shrubs, fruit trees, nut trees and vines, but excludes land under trees grown for wood or timber; - permanent pastures: land used permanently (five years or more) for herbaceous forage crops, either cultivated or growing wild (wild prairie or grazing land). 	Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Land Use	http://faostat.fao.org/site/377/default.aspx#ancor	Superficie agricole
Arable lands and permanent crops	<p>Arable lands and permanent crops area, expressed as a percentage of the total land area.</p> <p>Arable land refers to land under temporary crops (double-cropped areas are counted only once), temporary meadows for mowing or pasture, land under market and kitchen gardens and land temporarily fallow (less than five years). The abandoned land resulting from shifting cultivation is not included. Data for arable land is not meant to indicate the amount of land that is potentially cultivable. Permanent crops are sown or planted once, and then occupy the land for some years and need not be replanted after each annual harvest, such as cocoa, coffee and rubber. This category includes flowering shrubs, fruit trees, nut trees and vines, but excludes trees grown for wood or timber.</p>	Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Land Use	http://faostat.fao.org/site/377/default.aspx#ancor	Terres arables et cultures permanentes

<p>Permanent crops</p>	<p>Permanent crops area, expressed as a percentage of the total land area.</p> <p>Crops are divided into temporary and permanent crops. Permanent crops are sown or planted once, and then occupy the land for some years and need not be replanted after each annual harvest, such as cocoa, coffee and rubber. This category includes flowering shrubs, fruit trees, nut trees and vines, but excludes trees grown for wood or timber.</p>	<p>Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Land Use</p> <p>http://faostat.fao.org/site/377/default.aspx#ancor</p>	<p>Cultures permanentes</p>
<p>Permanent pastures</p>	<p>Permanent pastures area, expressed as a percentage of the total land area.</p> <p>Permanent pastures refers to land used permanently (five years or more) for herbaceous forage crops, either cultivated or growing wild (wild prairie or grazing land).</p>	<p>Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Land Use</p> <p>Food and Agriculture Organization of the United Nations (FAO) - Forestry Division - Forest area statistics</p>	<p>Prairies et pâturages permanents</p>
<p>Forest</p> <p><i>(MDG 7 - Ensure environmental sustainability - Target 7A: Integrate the principles of sustainable development into country policies and programmes and reverse the loss of environmental resources)</i></p>	<p>Area covered with forest, expressed as a percentage of the total land area.</p>	<p>Food and Agriculture Organization of the United Nations (FAO) - Forestry Division - Forest area statistics</p> <p>http://www.fao.org/forestry/country/32185/en/</p>	<p>Forêt</p>
<p>Irrigated agricultural land</p>	<p>Area equipped for irrigation which is actually irrigated, expressed as a percentage of the total land area.</p> <p>Part of the area equipped for irrigation refers to area equipped to provide water to crops and includes areas equipped for full/partial control irrigation, equipped lowland areas, and areas equipped for spate irrigation. Part of the area equipped for irrigation which is actually irrigated refers to physical areas. Irrigated land that is cultivated more than once a year is counted only once.</p>	<p>Food and Agriculture Organization of the United Nations (FAO) - AQUASTAT</p> <p>http://www.fao.org/nr/water/aquastat/data/query/index.html</p>	<p>Superficie agricole irriguée</p>

Arable and permanent cropland in Ha per agricultural inhabitant	Arable lands and permanent crops (in hectare) divided by agricultural population, in a given year	Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Land Use http://faostat.fao.org/site/377/default.aspx#anchor	Terres arables et cultures permanentes en Ha par habitant agricole
		Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Population, Annual series Statistical database on Population, Annual series http://faostat.fao.org/site/550/default.aspx#anchor	
Cattle	Number of heads of cattle (units) present in the country at the time of enumeration. It includes animals raised either for draft purposes or for meat and dairy production or kept for breeding. (Live animals in captivity for fur or skin are not included in the system although furskin trade is reported.)	Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Agricultural Production, Livestock Primary - Live animals http://faostat.fao.org/site/573/default.aspx#anchor	Bétail
Sheep and goats	Number of heads of sheep and goats (units) present in the country at the time of enumeration. It includes animals raised either for draft purposes or for meat and dairy production or kept for breeding. (Live animals in captivity for fur or skin are not included in the system although furskin trade is reported.)	Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Agricultural Production, Livestock Primary - Live animals http://faostat.fao.org/site/573/default.aspx#anchor	Moutons et chèvres
Poultry birds	Number of heads of poultry birds, reported in thousand units, present in the country at the time of enumeration. It includes animals raised either for draft purposes or for meat, eggs and dairy production or kept for breeding. Poultry birds include chicken, ducks, geese and turkeys.	Food and Agriculture Organization of the United Nations (FAO) FAOSTAT - Statistical database on Agricultural Production, Livestock Primary - Live animals http://faostat.fao.org/site/573/default.aspx#anchor	Volaille
Fish catch and aquaculture	Volume of aquatic species, expressed in tons, caught by the country in a given year, in all fishing areas including marine and freshwater sources, for all commercial, industrial, recreational and subsistence purposes. The harvest from mariculture, aquaculture and other kinds of fish farming is also included.	Food and Agriculture Organization of the United Nations (FAO) Fisheries and Aquaculture Department- Fisheries Global Information System (FIGIS) Global Production Statistics database http://www.fao.org/figis/servlet/TabLandArea?tb_ds=Production&tb_mode=TABLE&tb_act=SELECT&tb_grp=COUNTRY	Pêche et aquaculture
