

Greenhouse Gas Emissions from Bioenergy: a New Tool for Reporting and Comparing Lifecycle Analyses

**US Center - Hall C5, Bella Conference Center
Copenhagen, 16 December 2009
16.45 – 17.45**

DRAFT AGENDA

- 16.45** *Welcome and introduction to the Global Bioenergy Partnership (GBEP)*
Corrado Clini,
GBEP Chair
Director General, Ministry for the Environment Land and Sea, Italy
- 16.50** *A guide to the GBEP Common Methodological Framework for the GHG Lifecycle Analysis of Bioenergy*
Ben Zaitchik,
Co-Chair of the GBEP Task Force on GHG Methodologies
Foreign Affairs Officer, Office of Global Change, US Department of State
- Presentations*
- Testing results of the GBEP methodological framework from El Salvador and Dominican Republic*
Melinda Kimble,
Co-Chair of the GBEP Task Force on GHG Methodologies
Senior Vice President, United Nations Foundation
- GHG emissions and mitigation potentials in the agriculture, forestry and fisheries sectors*
Alexander Müller,
Assistant Director-General, Natural Resources Management and Environment Department, FAO
- GHG Life Cycle Analysis for biofuels*
Chris Grundler,
Deputy Director of the Office of Transportation and Air Quality, US Environmental Protection Agency
- Testing results of the GBEP methodological framework*
Nils Rettenmaier,
Institute for Energy and Environmental Research Heidelberg (IFEU), Germany
