ICTs: Transforming Agricultural Science, Research and Technology Generation: Introduction to the Workshop

by

Ajit Maru, Workshop Coordinator
Workshop Framework
Workshop Objectives

• What is the nature of frontier information and communications science and technology in ARD and how is it poised for application in next 5-10 years?
• Where and what is the potential for development impact?
Workshop Objectives

• Which applications could feasibly achieve development impact?
• What new arrangements, improved linkages and partnerships are needed for impact of this science and technology on agriculture especially the resource poor farmers and agricultural producers?
