Standard for Dairy Permeate Powders (Proposed Draft) (Annex 1 of CX/CAC 16/39/4 Add.2)
--

#### *Comments of Iran*

1. In table of article 3.3 (composition) ,It is suggested that the minimum lactose content range decrease from 76% to 70% as all the other criteria are reachable.
- 2.In table of article 3.3 (composition) , it is suggested to insert a row for titrable acidity as a differential factor because the method of preparation of these three ingredients is different in acidity and it can have an influence on the other factors which have been issued.
