UPDATE TO THE TEMPLATE FOR THE SPICES AND CULINARY HERBS STANDARDS

Background

1. CCSCH6¹ (2022) considered the revised template, noted the CCSCH Chairperson's explanation that template served as a basis for developing SCH standards that have a uniform layout and that the main reason for regularly updating the template was to ensure that it continued to meet the technical needs of CCSCH.
2. CCSCH6 agreed to continue with the careful review of the updated SCH template (Appendix I) and that concerns should be submitted for consideration at CCSCH7

¹ REP22/SCH para 138-142

APPENDIX I**TEMPLATE FOR SCH STANDARD****STANDARD FOR [INSERT EITHER THE GROUP NAME OR NAME OF A SCH AS APPROPRIATE]****INTRODUCTION**

- This Layout is for use by the Codex Committee on Spices and Culinary Herbs (CCSCH).

- {text}: For text which explains the use of the Standard Layout. This text does not appear in the standards.

<text>: For optional text for which several alternatives exist, depending on the products. Depending on the nature of SCH the provision(s) in brackets may be removed as not applicable/necessary.

Remarks on Sections 1. Scope and 2. Product definition: - *The specific names of the products being standardized are not indicated in the Scope, instead a reference is made to Section 2.1. "Product Definition" where they will be listed in a table by their common, trade and scientific names.*

1. SCOPE

This standard applies to all those plants products commonly sold in commerce as defined in Section 2.1 below offered for direct human consumption, commercial food processing and for repackaging if required. The exact species bought/sold may be defined by contractual specifications. This standard does not apply to these products when intended for industrial processing.
