Secretariat,
Codex Alimentarius Commission,
Joint FAO/WHO Food Standards Programme

SUBJECT
Request for comments on the Priority list of contaminants and naturally occurring toxicants for evaluation by JECFA

DEADLINE
31 March 2019

COMMENTS
Codex Secretariat
Codex Alimentarius Commission
Joint FAO/WHO Food Standards Programme
E-mail: codex@fao.org

BACKGROUND
1. The Priority List of Contaminants and Naturally Occurring Toxicants for Evaluation by the Joint FAO/WHO Expert Committee on Food Additives (JECFA) has been endorsed by the 12th Session of the Committee on Contaminants in Foods as indicated in paragraph 148 and presented in Appendix X of REP18/CF (attached as Annex I for convenience)\(^1\). Submission of comments and/or information is requested as follows:
   - Comments on substances that are already included in the Priority List (information on data availability of those substances should also be submitted where applicable); and/or
   - Nomination of new substances for the Priority List (information on details of new substances, expected timeline for data availability should also be submitted).

For the second bullet point, respondents are requested to complete the form as contained in Annex II of this CL.

REQUEST FOR COMMENTS
2. Codex members wishing to submit comments and/or information on the Priority List of Contaminants and Naturally Occurring Toxicants for Evaluation by JECFA either to (a) update the priority list as endorsed by CCCF12 or (b) propose new substances for inclusion in the priority list should do so in writing, by e-mail (word file to facilitate compilation of comments), to the above address, before 31 March 2019.

3. Codex members wishing to nominate new substances for inclusion in the priority list are kindly reminded to submit their proposals following the template provided in Annex II.

---

\(^1\) CCCF documents (including reports, standards and related texts) are available on the Codex webpage at: [http://www.fao.org/fao-who-codexalimentarius/committees/committee-detail/en/?committee=CCCF](http://www.fao.org/fao-who-codexalimentarius/committees/committee-detail/en/?committee=CCCF)
### ANNEX I

**PRIORITY LIST OF CONTAMINANTS AND NATURALLY OCCURRING TOXICANTS FOR EVALUATION BY JECFA**

<table>
<thead>
<tr>
<th>Contaminants and Naturally Occurring Toxicants</th>
<th>Background and Question(s) to be Answered</th>
<th>Data Availability (When, What)</th>
<th>Proposed By</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Dioxins</strong>&lt;sup&gt;2&lt;/sup&gt;</td>
<td>Full evaluation (toxicological assessment and exposure assessment) to update 2001 JECFA assessment and incorporate data on developmental effects from in utero exposures.</td>
<td>EFSA assessment available September 2018 Canada and Brazil: occurrence data on foods of animal origin.</td>
<td>Canada</td>
</tr>
<tr>
<td><strong>Inorganic Arsenic</strong></td>
<td>2001 JECFA evaluation based on cancer effects. This evaluation would focus on non-cancer effects (neurodevelopmental, immunological and cardiovascular) and could inform future risk management needs. NOTE: needs to be put in context to cancer risk assessment.</td>
<td>USA: occurrence data on rice cereals, and rice and non-rice products; 2016 risk assessment; 2016 draft action level for inorganic arsenic in rice cereal USA: conducting neurodevelopmental study in rats to assess impact of arsenic on behavior; study to be completed in 2019, results expected in 2020 Brazil: iAs occurrence data in rice; submitted total As data on poultry, pork, fish, and cattle meat Japan and China: occurrence data on rice and rice products (already submitted to GEMS/Food) AU/NZ: total diet study; occurrence data in rice products. India: occurrence data in rice Turkey: occurrence data in rice</td>
<td>USA</td>
</tr>
<tr>
<td><strong>Scopoletin</strong></td>
<td>Full evaluation (toxicological assessment and exposure assessment) in fermented Noni juice</td>
<td>CCNASWP still working on standard for noni juice and data availability</td>
<td>FAO/WHO Coordinating Committee for North America and South-West Pacific (CCNASWP)</td>
</tr>
<tr>
<td><strong>Ergot alkaloids</strong>&lt;sup&gt;3&lt;/sup&gt;</td>
<td>Full evaluation (toxicological assessment and exposure assessment)</td>
<td>EFSA (2012) report EU: occurrence data (collecting); assessment on exposures to ergot alkaloids (EFSA report published in May 2017) Canada: occurrence data (commodity specific and unprocessed cereal grains) NZ: occurrence data on cereals (2-year collection, will provide data from first year)</td>
<td>EU; Canada</td>
</tr>
</tbody>
</table>

---

2 Lower priority: JECFA evaluation to build on the ongoing work at national and regional re-assessment of dioxins.

3 Ergot is mentioned in quality chapter, suggestion for integration into GSCTFF.

| Trichothecenes (T2 and HT2)                   | Update of risk assessment, including exposure assessment (T2, HT2, DAS) | Brazil: occurrence data in cereals Canada: occurrence data (commodity specific and unprocessed cereal grains) Cuba: epidemiological data EU: Report by EFSA on dietary exposure published in July 2017. Data will be made available to GEMS/food database. | JECFA83, recommendation supported by CCCF11. |

<sup>4</sup> The calls for data and for experts for the meeting on Ciguatoxins is available on the respective FAO and WHO websites:
ANNEX II
NOMINATION OF NEW SUBSTANCES FOR THE PRIORITy LIST OF CONTAMINANTS AND NATURALLY OCCURRING TOXICANTS FOR EVALUATION BY JECFA

1. Basic information

1) Proposal for inclusion submitted by:
2) Name of compound; chemical name(s):
3) Identification of (additional) data (toxicology, metabolism, occurrence, food consumption) which could be provided to JECFA:
4) List of countries where surveillance data are likely to be available, and if possible list of contact person who could provide such data, including quality assurance information on the data.
5) Timeline for data availability:

2. Detail information

1) Whether or not the occurrence of the compound in commodities will have potential to cause public health and/or trade problems;
2) Whether or not commodities containing the compound are in international trade and represent a significant portion of the diet; and,
3) Commitment that a dossier (as complete as possible) will be available for evaluation by the JECFA.
4) Relevant justification and information on the following prioritisation criteria
   - Consumer protection from the point of view of health and prevention of unfair trade practices;
   - Compliance with CCCF’s Terms of Reference;
   - Compliance with JECFA’s Terms of Reference;
   - Compliance with the Codex Alimentarius Commission’s Strategic Plan, its relevant plans of work and Criteria for the Establishment of Work Priorities;
   - The quality, quantity, adequacy, and availability of data pertinent to performing a risk assessment, including data from developing countries;
   - The prospect of completing the work in a reasonable period of time;
   - The diversity of national legislation and any apparent impediments to international trade;
   - The impact on international trade (i.e. magnitude of the problem in international trade);
   - The needs and concerns of developing countries; and,
   - Work already undertaken by other international organisations.

---
