Front-of-Pack Labelling

Being thankful for the work of the eWG collection of front-of-pack labelling (FOPL) programs operated by several countries, the Republic of Korea would like to suggest the following comments on agenda item 7.

The Republic of Korea manages front-of-pack labeling as voluntary system enforced by <Food labelling standards>. To avoid creating problems for export, we support that complying with the existing regulations (*Guidelines on Nutrition labeling CAC/GL 2-1985*) should be modified by providing adequate guidance using FOPL to assist governments as an optional labelling.
