### INFORMATION DOCUMENTS

**Document for information and use in discussions related to contaminants and toxins of the GSCTFF (Doc. Ref. CF/13 INF/1):** An updated version of the document for information and use to support discussions on contaminants and toxins during the Session will be made available.

### INFORMATION NOTES

**Agenda Items 8 and 9 - MLs held at Step 4:** These agenda items are not for discussion according to the decision of CCCF12 to hold these MLs to ensure the implementation of the respective codes of practice to generate additional data to be assessed by JECFA in three years-time (REP18/CF, paragraphs 115 and 119). In considering the decision on the ML for total aflatoxins in ready-to-eat peanuts during the Critical Review, CCEXEC75 recommended that CCCF accelerate the process to finalize the ML and sampling plan for this contaminant / commodity combination (REP18/EXEC2-Rev.1, paragraph 23).

**Agenda Item 19 –JECFA evaluations:** This agenda item will consider the priority list of contaminants for evaluation / re-evaluation by JECFA based on the replies provided to CL 2019/11-CF as consolidated in CX/CF 19/13/17 and follow-up work to the outcome of previous JECFA evaluations or relevant FAO/WHO expert consultations as presented in CX/CF 19/13/3 (Agenda Item 3).
