Document Reference CX/EXEC 22/83/3

Revised text for Para 20

[Option 2 – Recording in the standard

Any Member may ask that the standard reflect the scope and rationale of any anticipated difference in application of the standard where this is consistent with the risk management provisions of *the Working Principles for Risk Analysis for Application in the Framework of the Codex Alimentarius*, or relates to Other Legitimate Factors that may be agreed by the committee/Commission. Where Member(s) have abstained from acceptance on the basis of other considerations, they may ask that the standard reflects that those considerations have not been taken into account in the elaboration of the standard.]

Para 23 – revised text

Revised text for Para 23

[In the event that the CAC (or its subsidiary bodies), despite all efforts, is unable to advance/adopt a standard, the Chairperson may propose other options taking into account the provisions of the Procedural Manual including the Measures to facilitate Consensus. Such situations may arise, for example, where a Chairperson has ruled that all issues within the remit of Codex have been considered and has proposed advancement/adoption of the standard, but has been overruled by the Commission/subsidiary body by consensus or by means of a vote. ~~Some of the other options include : Proposing more time for discussion; asking advice of CCEXEC as part of critical review process; proposing holding standard pending any new information that may be presented and; proposing revision of scope of standard. If all these options are exhausted, the chairperson may propose suspension or discontinuation of work]~~
