JOINT FAO/WHO FOOD STANDARDS PROGRAMME

CODEX COMMITTEE ON FOOD ADDITIVES

Forty-eighth Session

Xi'an, China, 14-18 March 2016

LIST OF STANDARDS DEVELOPED BY ABOLISHED OR ADJOURNED COMMITTEES AND THE CORRESPONDING FOOD ADDITIVE PROVISIONS

(Prepared by the Codex Secretariat)

BACKGROUND

1. For the alignment of the food additive provisions of the commodity standards with the adopted food additive provisions of the *General Standard for Food Additives* (CODEX STAN 192-1995) (GSFA), the 47th Session of the Codex Committee on Food Additives (CCFA47) agreed that primary criterion for prioritising should be given whether there is an active commodity committee. A secondary consideration would be the level of support from a peak body/trade association to assist the alignment work. (ref. REP 15/FA, para. 54.).

2. Since CCFA42, consideration on alignment has been given to five (5) standards developed by the Committee on Processed Meat and Poultry Products (CCPMPP), one (1) standard developed by the Committee on Soups and Broths (CCSB) and four (4) standards developed by the Committee on Cocoa Products and Chocolate (CCCPC). Both CCPMPP and CCSB were abolished, while CCCPC was adjourned *sine die* in 2002.

3. Currently there are 60 commodity standards developed by committees which were abolished, adjourned sine die or working by correspondence.

4. This <u>CRD</u> has been prepared to assist in furthering the work of CCFA on alignment and it provides a global picture on the work that has to be undertaken.

EXPLANATORY NOTES

5. In addition to those commodity standards on which alignment has been considered, Appendix I to this document lists all the commodity standards developed by Committees that are either abolished, or adjourned, or active (but working by correspondence only on few specific food standards), and regardless of whether they contain specific food additive provisions. For quick reference: the column "Food Additive Provisions" gives an indication if each standard contains food additive provisions or not and; when the food additive provisions in a standard is not in the conventional format (i.e. names of food additives and maximum use levels), a brief explanatory comments is given. The Appendix also provides the name of the commodity committee originally responsible for the revision and amendments of each standard.

Actual food additive provisions are listed on FA/48 INF/02.
