Agenda Items, 7, 8

CRD 6

JOINT FAO/WHO FOOD STANDARDS PROGRAMME
CODEX COMMITTEE ON RESIDUES OF VETERINARY DRUGS IN FOODS
Twenty-fourth Session
Comments Submitted by: Thailand

Agenda Item 7 Discussion paper on MRLs for groups of fish species

In general, Thailand supports the extrapolating MRLs for groups of fish species. Therefore, we concur with option B, at this point of time. For other matter, when considering marker residue, it must be unique indicator of substance use i.e. not found in natural occurring molecule.

Agenda Item 8 Discussion paper on edible offal tissues

Thailand is of the view that MRL study should be specific to the edible offal tissue, particularly different visceral offal. Otherwise, the representative tissue should be considered.
