

Appendix VI

**PROPOSED DRAFT CONDITIONS FOR A “FREE” OF TRANS FATTY ACIDS (TFAs) CLAIM
IN THE *GUIDELINES FOR USE OF NUTRITION AND HEALTH CLAIMS (CXG 23-1997)*¹**

(for comments at Step 3)

Component	Claim	Conditions (not more than)
Trans fatty acids	Free	1 g per 100 g of fat And must meet the conditions for “low” in saturated fats ²

¹ To be inserted between Saturated Fat and Cholesterol within the Table of conditions for nutrient content claims in the *Guidelines for Use of Nutrition and Health Claims (CXG 23-1997)*

² As per the Table conditions for nutrient content claims in the *Guidelines for Use of Nutrition and Health Claims*, the conditions for “low” in saturated fats are as follows: 1.5 g saturated fat per 100 g (solids), 0.75 g saturated fat per 100 mL (liquids) and 10% of energy of saturated fat.
