***Comments from HealthforAnimals***

Regarding the Proposal to move the Code of Practice to Minimize and Contain Foodborne Antimicrobial Resistance (CXC 61-2005) to Step 5

HealthforAnimals notes that the Code of Practice has been under review in the task force for many years. Excellent progress was made at TFAMR7, where the full Code (minus the bracketed texts) was agreed with full support of all delegations without reservations from any country or observer.

HealthforAnimals supports the progress made on the Code.

HealthforAnimals supports the TFAMR7 report and CCEXEC79 recommendations to:

- 1) adopt the Code at Step 5,
- 2) deal with the bracketed text in an EWG and at the next TFAMR meeting, and
- 3) avoid reopening the carefully construed and already agreed provisions.
