## JOINT FAO/WHO FOOD STANDARDS PROGRAMME

### CODEX ALIMENTARIUS COMMISSION

Forty-sixth Session

FAO Headquarters, Rome, Italy

27 November - 2 December 2023

### STATEMENTS ON THE CURRENT SITUATION IN UKRAINE

(Comments from Australia, Canada, European Union and the United States of America)

#### Australia

##### Statement from Australia on the Russian Invasion of Ukraine

1. Australia condemns Russia's illegal and immoral invasion of Ukraine, it is a gross violation of international law.
2. Australia strongly supports Ukraine's sovereignty and territorial integrity and calls on Russia to end its war.
3. Russia's actions are causing immense human suffering and exacerbating existing fragilities in the global economy – constraining growth, increasing inflation, disrupting supply chains, heightening energy and food insecurity, and elevating financial stability risks.
4. Australia is committed to strengthening the global rules-based order, and is a ready and able partner for all countries that seek a peaceful and prosperous world, where sovereignty is respected.

#### Canada

##### Statement from Canada Concerning Russia's Invasion of Ukraine

Canada strongly condemns Russia's unjustifiable, unprovoked and illegal war of aggression against Ukraine.

Canada underlines its strong and ongoing support for Ukraine and the Ukrainian people.

The attacks cause widespread humanitarian consequences and result in the senseless deaths of innocent people and destruction of civilian infrastructure.

Russia's illegal war of aggression is exacerbating global food insecurity and the rising number of people suffering from hunger and all forms of malnutrition.

Russia's aggression has jeopardized global supply chains, and in particular Ukraine's ability to protect the health of its consumers and ensuring fair practices in the food trade, the vision for the Codex Alimentarius Commission as jointly established by the Food and Agriculture Organization of the United Nations and the World Health Organization.

This is not just an attack on Ukraine and its ability to engage in and benefit from this institution. This is an attack on the principles of rules-based international order and human rights, and a clear violation of international law and the UN Charter.

#### European Union

## **Statement of the European Union and its Member states on the Russian aggression against Ukraine**

The European Union and its Member States express their full solidarity with Ukraine and the Ukrainian people. The European Union and its Member States condemn in the strongest possible terms Russia's unprovoked and unjustified act of aggression against Ukraine, which grossly violates international law and the United Nations Charter, and undermines international security and stability. The European Union and its Member States demand that Russia immediately cease its military actions, withdraw all its troops from the entire territory of Ukraine and fully respect Ukraine's territorial integrity, sovereignty and independence within its internationally recognised borders and abide by United Nations General Assembly resolution titled "Aggression against Ukraine" supported by 141 states at the 11th emergency special session. The European Union and its Member States resolutely support Ukraine's inherent right of self-defence and the Ukrainian armed forces' efforts to defend Ukraine's territorial integrity and population in accordance with Article 51 of the United Nations Charter. At all times Russia must respect its obligations under international law, including international humanitarian and human rights law, including with respect to the protection of civilians, women and children. Russia also needs to stop its disinformation campaign and cyber-attacks.

### **United Kingdom**

#### **IMPACT ON MULTILATERAL RELATIONS IN THE CODEX ALIMENTARIUS COMMISSION IN LIGHT OF RUSSIA'S INVASION OF UKRAINE**

1.1. The UK has been a Member of the Codex Alimentarius Commission since it was founded in 1963 and has a long-established track record of supporting and championing Codex's core values and objectives throughout its membership. The UK would like to take this opportunity to reaffirm its commitment and continued support for the work of the Commission and its subsidiary bodies.

1.2. We highly value the multilateral consensus-based and collaborative approach used to develop international food standards in the Commission. Further, the relationships, trust and mutual respect that has been built between countries and regions in the Codex family.

1.3. In this context, we take the opportunity to state for the record our continued condemnation of Russia's invasion of Ukraine, noting the severe consequences of Russian aggression on food security around the world and the violation of the fundamental tenets of sovereignty and territorial integrity on which all international cooperation relies, including our Commission. Russia must immediately end its invasion and withdraw its troops.

1.4 The UK will continue to work collaboratively with other international partners including likeminded members of the Commission who share our values to deliver robust, science-based food standards that protect everyone everywhere, whilst also facilitating global fair trade.

### **United States of America**

#### **U.S. CRD Statement on the Russia-Ukraine War**

##### **46<sup>th</sup> Session of the Codex Alimentarius Commission**

The United States would like to join other members in condemning Russia's continued war against Ukraine. Russia's unprovoked and unjustified war against Ukraine and its people is exacting a devastating human toll. The United States remains unwavering in its support of the government and people of Ukraine as they defend their country and their freedom.

Russia's brutal and needless war is undermining Ukraine's ability to produce and export food. Russia's actions run contrary to the multilateral science- and consensus-based process that is foundational to the work of Codex. Russia's war has increased the volatility of food, fertilizer and energy prices, and reduced global food system resiliency.

Reflecting its longstanding commitment to food security, the United States moved swiftly to help rally the international response to the current food security challenges. The United States has committed over \$17.5 billion in humanitarian aid and food assistance since 2021.

---

The United States encourages countries to take this time to examine barriers to trade, including rules, standards and export restrictions that may impede the seamless flow of agricultural products vital to global food safety and security.

The United States condemns in the strongest possible terms Russia's unprovoked war against Ukraine and urges Russia to withdraw its troops from Ukraine immediately.
