Selected Papers From Calls For Papers

Papers Authors name, <i>Title</i>	Full papers
Banwell, Cathy with Jane Dixon, Matthew Kelly, Sam-ang Seubsman, and Vasoontara Yiengprugsuwan, Wimalin Rimpeekool and Adrian Sleigh. <i>Methodological approaches connecting the food system to the urban nutrition transition: Fresh food retailing in Thailand.</i>	CFP1-08 Full paper
Calori, Andrea with Magarini, Andrea. <i>The Role Of Informal Networks In The Urban Food Policy Of Milan: Notes Toward Food Policy Councils.</i>	CFP1-11 Full paper
Dansero, E. with Pettenati, G. and Toldo, A. <i>The Atlas of Food. A space of representation, a place for policies, a methodology of territorial analysis.</i>	CFP1-05 Full paper
García-Díaz, César with Mejía, Gonzalo. <i>Market-level Effects of Firm-level Adaptation, Intermediation and Cost Heterogeneity in Networked Markets of Fresh Foods: A Case Study in Colombia.</i>	CFP1-16 Full paper
Nischalke, Sarah. <i>We are where we eat - The analysis of the social and spatial dimension of urban food systems with the help of inequality research.</i>	CFP1-02 Full paper
Pucciarelli, Dianne with Lutocka, Scott. <i>A Case Study: How an urban produce company reduced waste to zero while providing environmental and social benefits to the community.</i>	CFP1-01 Full paper
Rossi, Adanella with Brunori, Gianluca. <i>Towards a new food governance: Exploring the development of an integrated urban food strategy.</i>	CFP1-18 Full paper
Veronez de Sousa, Leonardo <i>Food system analysis versus Value chain analysis: a conceptual approach of “meeting urban food needs”.</i>	CFP1-20 Full paper
Waterlander, Wilma E with Cliona Ni Mhurchu, Helen Eyles, Stefanie Vandevijvere, Cristina Cleghorn, Peter Scarborough, Boyd Swinburn and Jaap Seidell. <i>Food Futures: A detailed study protocol for combining a food systems approach and public health nutrition</i>	CFP1-07 Full paper

Armendariz, Vanessa with Atzori, Alberto and Armenia, Stefano. <i>Understanding the dynamics of FoodSupply and Distribution Systems</i>	CFP3-18 Full paper
Dentoni, Domenico with Krussmann, Felix. <i>Value network analysis of Malawian legume chains: Implications for institutional entrepreneurship.</i>	CFP3-13 Full paper
Hualda, Luis Antonio T. <i>Analyzing the food and agriculture system of the southern philippines: a complex systems approach.</i>	CFP3-03 Full paper
Huffaker, Ray with Canavari, Maurizio. <i>A Nonlinear Dynamics Approach to Evaluating the 'Realism' of Food Systems Models</i>	CFP3-05 Full paper
Hummel J. R. with Christiansen J. H., Martinez-Moyano I., Lewis L. P. and Schneider, J.L. <i>Feeding the Future's Cities: Challenges in an Uncertain World.</i>	CFP3-15 Full paper
Martorell, Hugo. <i>City-region food strategies: an introduction to Open systems theory and practice to Montreal, Quebec.</i>	CFP3-21 Full paper
Mejía, Gonzalo with Christopher Mejía, Vivian Rangel, César García-Díaz, Carlos Montoya and Isabel Agudelo. <i>Food donation: An initiative to mitigate hunger in the world.</i>	CFP3-23 Full paper
Menegat, Stefano. <i>Alternative Food Networks in urban contexts: a system dynamics approach.</i>	CFP3-01 Full paper
Monasterolo, Irene with Mollona, Edoardo and Pasqualino, Roberto. <i>The role of System Dynamics modelling to understand food chain complexity and address challenges for sustainability policies</i>	CFP3-06 Full paper
Montesclaros, Jose Ma. Luis P. <i>Dynamic simulations of urban policies for sustainable food securitization: Dynamics of Urban Development, Agriculture Sector Growth, and Price Mechanisms.</i>	CFP3-12 Full paper
Rich, Karl M. with Rich, Magda and Hamza, Kanar. <i>From response to resilience: the role of system dynamics approaches in analyzing and developing value chains from urban and peri-urban agriculture.</i>	CFP3-19 Full paper
Zuellich, Gunda with Kaveh Dianatia, Steve Arquitta and Matteo Pedercinia,. <i>Competing agricultural paradigms to meet urban and rural food needs in Senegal – An Integrated System Approach.</i>	CFP3-07 Full paper

Meeting Urban Food Needs (MUFN) Presentations.
