Challenges, best practices and lessons learned

- Building on strong national and political ownership
- Bringing all stakeholders and development partners on board to support the Government owned and led agenda
- Fostering transparency through participatory and inclusive peer-review processes
- Building on strong inter-ministerial cooperation to tackle all aspects of food insecurity and to ensure adequate funding

Proposals for follow up

- CFS may provide a platform to facilitate dialogue and coordination among all stakeholders involved in the government led process
- CFS and African Union may establish regular linkages through a focal point mechanism
- CFS may provide a platform for further south-south knowledge exchange
