**ADDRESSING HUNGER AND POVERTY
IN PROTRACTED CRISES**

A SIDE EVENT TO THE HLPF

Why are protracted crises situations particularly complex to address, and why do they call for an integrated and coordinated response? This event will raise understanding of the need to bring humanitarian assistance and longer-term development efforts together in protracted crises contexts. The CFS Framework for Action for Food Security and Nutrition in Protracted Crises (CFS-FFA) provides policy guidance to governments and all stakeholders to address immediate food security and nutrition needs, strengthen the resilience of agricultural systems and livelihoods and work towards achieving the SDGs.
