

ROBERT D. SAIK

Agrologist, Certified Agriculture Consultant and agriculture entrepreneur, is founder & CEO of AGvisorPRO, a global connectivity platform providing instantaneous linkage between farmers and experts effectively putting advisors on the farm without being on the farm. Rob has international experience working globally in the farming and agriculture technology sector. He has authored two books, the latest being "FOOD 5.0 - How We Feed The Future" which tackles the question "how do we ensure agriculture is infinitely sustainable?"

Rob has founded/partnered in many ventures including Agri-Trend/Agri-Data (a consulting and data management network; now Trimble Ag) as well as partnering in a farming operation in Uganda. He has been involved in agricultural projects in Kenya, Nigeria, Kazakhstan, Ukraine, Australia, South America and Europe. An agriculture thought leader, he has been sought as a keynote speaker on issues surrounding agronomy, sustainability, precision agriculture, robotics, data management, remote sensing and technology integration. His TEDx talk "Will Agriculture Be ALLOWED To Feed 9 Billion People" has been viewed over 162,000 times. He is also the founder and leader of the PowerFarm peer group providing business leadership to leading edge growers.

Residing in Olds, Alberta, Canada he has 4 children and 7 grandchildren.
