

AVAILABILITY	Standard Module(s)	Usual source
I.1. Food availability		
a. Energy/quantities		
Average per person dietary energy supply (DES) (kcal/person/day)		
Aggregate supply of basic food staples in cereal energy equivalent (kcal/person/day)		
Contribution of basic food staples to total DES (%)		
Cereals, roots and tubers as % of DES (% DES from staple food)		
Share of non-starchy foods in total DES (%) - Dietary energy index		
Share of non-starchy foods in total fat (%) - Dietary fat index		
Share of non-starchy foods in total protein (%) - Dietary protein index		
b. Nutrients		
Contribution of each macronutrient (carbs, protein and fats) to total DES (%)		
Dietary protein supply per person (g/person/day)		
Animal products: share to total energy supply (%)		
Animal products: share to total protein supply (%)		
Animal products: share to total fat supply (%)		
Dietary fat supply per person (g/person/day)		
Dietary iron available for consumption (mg/person/day)		
Vitamin A available for consumption (mg/person/day)		
I.2. Import requirement		
Cereal import dependency ratio (%)		
Total food aid (million tons)		
Share of food aid in total supply (%)		
Emergency Food Aid (to victims of natural or manmade disasters) (tons)		
Project Food Aid (to support poverty reduction / disaster prevention activities) (tons)		
Programme Food Aid (resource transfer for payments balance/budgetary support act.)		
I.3. Development assistance		
Official Development Assistance to Agriculture		
I.4. Agriculture productivity		
a. Input		
Agriculture, value added (% of GDP)		
Agriculture, value added (annual % growth)		
% of pop. economically active in agriculture on total economically active population		

Agricultural value added per worker (constant 2000US\$)		
Share of agriculture area over total land area (%)		
Share of arable land over total land area or agriculture area (%)		
Arable Land per capita (ha/person)		
b. Output		
Area harvested, by each crops (ha)		
Cereal yields (hg/ha)		
Roots yields (hg/ha)		
Food Production per person, overall (kg/person/year)		
Production per person of cereals (kg/person/year)		
Production per person of starchy roots (kg/person/year)		
Net total Agriculture per capita Production Index Number		
Net per capita food Production Index Number		
Net per capita crop Production Index Number		
Net per capita livestock Production Index Number
