Note on methodology:

Data on trade volumes published in this statistical compendium were compiled from: the responses to the annual questionnaire of the FAO Intergovernmental Sub-Group on Bananas (2007-2016); data from the UN Comtrade database; and secondary data from desk research. Price data were collected from several official sources, as respectively stated in the footnotes. All datasets refer to global trade of fresh bananas, excluding plantains, as covered by HS code 080390 under the harmonized tariff nomenclature system of the World Customs Organization. All data are provisional.
