FOREWORD

This document is the fourteenth edition of the World Statistical Compendium. The first issue was published in 1980 and substantially revised and up-dated in 1983, 1986, 1989, 1992, 1994, 1996, 1998, 2001, 2003, 2005, 2008 and 2010. The present edition, prepared in response to the ever growing demand for coherent statistical data in the hides, skins and derived products sector, contains up-dated figures up to 2011. Country series have been revised in cases where new information has become available. An integrated approach used in the previous compendia has been adopted. The compendium contains results of statistical analysis of some 190 countries linking stages of processing from the raw hide to the finished product stage. The methodological approach adopted is described in more detail in the 1986 edition. Please note that some countries are listed under two different country groups for different years according to their change in economic aggregation. In particular:

Cyprus appears in Near East up to 2003 and in EU (25) from 2004; Czech Republic, Hungary, Malta, Poland, Slovakia and Slovenia appear in Rest of Europe up to 2003 and in EU (25) from 2004; Estonia, Latvia and Lithuania appear in Area Former USSR up to 2003 and in EU (25) from 2004. Bulgaria and Romania appear in Rest of Europe up to 2006 and in EU (27) from 2007.

The detailed statistical data on production, utilization and trade of hides and skins, leather and leather footwear are preceded by eleven summary tables highlighting the salient features and changes which have taken place in the hides and skins and leather sector.

Despite progress in enhancing the coherence and comparability of the data presented, shortcomings still exist. It is to be hoped that the work undertaken by the FAO Sub-Group on Hides and Skins will further advance progress in eliminating existing statistical deficiencies.

0.0 means that figures are less than one-half of the unit stated

tonnes means metric tonnes

Africa excludes Near East in Africa (i.e. Egypt, Libyan Arab Jamahiriya and Sudan)

Latin America includes the Caribbean

AVANT-PROPOS

Ceci est la quatorzième édition du Recueil de statistiques mondiales. Publié pour la première fois en 1980, le Recueil a été considérablement remanié et mis à jour en 1983, 1986, 1989, 1992, 1994, 1996, 1998, 2001, 2003, 2005, 2008 et 2010. La présente édition, qui a été préparée en réponse à une demande croissante de données statistiques cohérentes sur le secteur des cuirs, peaux et produits dérivés, contient des chiffres allant jusqu'en 2011. Les séries de données nationales ont été révisées lorsqu'il y avait de nouvelles informations disponibles. On a utilisé la même méthode intégrée que dans les recueils précédents, c'est-à-dire que l'on donne, pour 190 pays, les résultats des analyses statistiques reliant les différentes phases de traitement, du cuir brut aux produits finis. La méthode adoptée est décrite en détail dans l'édition de 1986. Prière de noter que certains pays sont énumérés dans deux différents groupes de pays selon leur changement d'agrégation économique. En particulier:

Chypre paraître dans le Proche-Orient jusqu'à 2003 et dans l'UE (25) de 2004; la République tchèque, l'Hongrie, Malte, la Pologne, la Slovaquie et la Slovène paraissent dans le Rest d'Europe jusqu'à 2003 et dans l'UE (25) de 2004; l'Estonie, le Lettonie et la Lituanie paraissent dans la zone de l'ex-URSS jusqu'à 2003 et dans l'UE (25) de 2004. La Bulgarie et la Roumanie paraissent dans le Rest d'Europe jusqu'à 2006 et dans l'UE (27) de 2007.

Les statistiques détaillées de la production, de l'utilisation et du commerce des cuirs et peaux, du cuir préparé et des chaussures en cuir sont précédées de 11 tableaux synthétiques qui mettent en exergue les faits saillants et les changements intervenus dans ce secteur.

Même si l'on a amélioré la cohérence et la comparabilité des données présentées, des lacunes subsistent. Il faut espérer que les travaux qui seront entrepris par le Sous-Groupe FAO des cuirs et peaux permettront progressivement de les combler.

INTRODUCCIÓN

El presente documento es la decimocuarta edición del Compendio estadístico mundial. La primera edición se publicó en 1980 y fue considerablemente revisada y actualizada en 1983, 1986, 1989, 1992, 1994, 1996, 1998, 2001, 2003, 2005, 2008 y 2010. Esta versión, preparada para satisfacer la demanda cada vez mayor de datos estadísticos coherentes en el sector de los cueros, pieles y productos derivados, contiene cifras actualizadas hasta 2011. Las series por países se han revisado en los casos en que se disponía de nueva información. Se ha adoptado el mismo enfoque integrado utilizado en los compendios anteriores, presentando los resultados del análisis estadístico relativos a las diversas etapas de elaboración, desde el cuero sin curtir hasta el producto terminado en unos 190 países. En la edición de 1986 se describe con mayor detalle la metodología adoptada. Se ruega notar que algunos países están incluidos en dos diferentes grupos de países según el cambio de agrupación económica. En particular:

Chipre aparece en el Cercano Oriente hasta 2003 y en la UE (25) desde 2004; República Checa, Hungría, Malta, Polonia, República Eslovaca y Eslovenia aparecen en el Resto de Europa hasta 2003 y en la UE (25) desde 2004; Estonia, Letonia y Lituania aparecen en la región de la ex URSS hasta 2003 y en la UE (25) desde 2004. Bulgaria y Rumanía aparecen en el Resto de Europa hasta 2006 y en la UE (27) desde 2007.

Las estadísticas detalladas sobre la producción, utilización y comercio de los cueros y pieles sin curtir, el cuero y el calzado de cuero están precedidas por 11 cuadros resumidos en los que se exponen las características principales y los cambios registrados en el sector de los cueros y pieles sin curtir y los curtidos.

Aunque se ha logrado una mayor coherencia y comparabilidad de los datos presentados, sigue habiendo algunas deficiencias. Es de esperar que el trabajo realizado por el Subgrupo sobre Cueros y Pieles de la FAO contribuya a facilitar la eliminación de las deficiencias estadísticas existentes.

SALIENT FEATURES OF THE HIDES AND SKINS AND DERIVED PRODUCTS ECONOMY

Summary Tables I-XI have been aggregated from country data presented in the World Compendium. They provide information on salient features and major developments characterizing the hides, skins, leather and leather manufactures economy at global and regional levels.

FAITS SAILLANTS DE L'ÉCONOMIE DES CUIRS ET PEAUX ET DES PRODUITS DERIVES

Les tableaux récapitulatifs I à XI ont été composés à partir de données par pays contenues dans le présent Recueil. Ils mettent en lumière les faits saillants et les principaux traits de l'évolution de l'économie des cuirs et peaux, des cuirs préparés et des articles en cuir aux niveaux régional et mondial.

CARACTERISTICAS PRINCIPALES DE LA ECONOMIA DE LOS CUEROS, PIELES Y PRODUCTOS DERIVADOS

Los cuadros sintéticos I-XI están basados en los datos por países contenidos en el presente Compendio y tienen por objeto ilustrar algunas de las principales características y aspectos destacados de la economía de los cueros y pieles sin curtir, cuero y manufacturas de cuero, nivel mundial y regional.

1/ Theoretically, net trade at the global level should be close to zero, but in practice due to shipping time and reporting discrepancies the difference can be significant.

2/ Wet salted for bovine, dry without wool for sheep and dry for goat.

3/ While there is a certain quantity of leather from sheep and goat going into footwear, leather shoes balances have only been shown against the bovine part of the table for reasons of simplicity and lack of data.

Apparent Availability = Production + Imports - Exports.

Net Trade = Exports - Imports.

1/ Théoriquement, le commerce net au niveau mondial devrait être zéro, les soldes restants sont dus à des écarts statistiques.

2/ Humide salé pour les bovins, sec délainé pour les moutons et les chèvres.

3/ Une certaine quantité de peaux de moutons et de chèvres est utilisée pour la fabrication des chaussures mais, pour des raisons de simplicité, le bilan des chaussures en cuir n'est indiqué que pour le cuir de bovin.

Disponibilité apparente = Production + importations - exportations.

Commerce net = Exportations - importations.

Commerce net = Exportations - importations

Théoriquement le commerce net au niveau mondial devrait être zéro, Les différences sont dues à des écarts statistiques,

Comercio neto = Exportaciones - importaciones

Teóricamente, el comercio neto a nivel global debería ser igual a cero. Las restantes discrepancias se deben a imperfecciones estadísticas.
