

## AGRICULTURAL/FARMER ORGANISATIONS

**Table 7.1 Number of farmer organisations active at village level by type of organisation at national and sub-national level**

This table illustrates the kind of farmer organisations existing at village level and will indicate regional differences, if any, in this regard. The table does not provide sex-specific information.

Region / Type of farmer organisation	Number of groups/region	% of the total number of groups at the regional level
Region: ... VISACAS GAWFA NACCOG NAWFA Farmers platform Government Assistance (project) NGO		
Region: ...		
National		

Sources: Burkina Faso (E 7.1) and The Gambia (E 7.3)

NOTE - The kind of farmer organisations listed depends on country specific circumstances.

**Table 7.2 Number of farmers' groups at village level by composition and type of activities at national and sub-national level**

This table indicates the type of activities performed by farmers' groups and their composition. Such information can be of particular relevance for the development of programmes and policies which aim to increase the agricultural production and productivity of farmers through farmers' groups.

Région / Activités menées par le groupement	Composition du groupement					
	Groupe masculin		Groupe féminin		Groupe mixte	
	N	%	N	%	N	%
Région : ... Culture pluviale Elevage Pêche Chasse Sylvicult. Etc.						
Région : ...						
Ensemble du pays						

Source: Burkina Faso (E 7.1/suggestion)

NOTE - The farmer organisations have been re-grouped based on their composition to allow for a gender based analysis of the data. In other situations it may also be relevant to make a distinction between youths and adults.

## MEMBERSHIP OF AGRICULTURAL/FARMER ORGANISATIONS

**Table 7.3 Male and female holders' membership of farmer organisations at national and sub-national level**

This table illustrates the number of male and female holders being a member of a farmer organisation and will indicate gender differences, if any, in this regard.

Region	Total number of holders		Male holders		Female holders	
	N	% member of farmer organisation	N	% member of farmer organisation	N	% member of farmer organisation
Region: ...						
Region: ...						
National						

Sources: Mali (E 7.2) and The Gambia (E 7.3)

**Table 7.4 Membership of the active agricultural population (18 – 65 years) of farmer organisations by sex of the farmer at national and sub-national level**

This table illustrates the number of active male and female farmers being a member of a farmer organisation. The information will indicate differences in membership, if any, between male and female farmers.

Region	Total active agricultural population		Male active agricultural population		Female active agricultural population	
	N	% member of farmer organisation	N	% member of farmer organisation	N	% member of farmer organisation
Region ...						
Region: ...						
National						

Sources: Mali (E 7.2) and The Gambia (E 7.3)

**Table 7.5 Male and female farmers' membership of farmer organisations by sex of the holder at national and sub-national level (active agric. pop. 18 – 65 years)**

This table indicates whether membership of individual male and female farmers of farmer organisations differs depending on whether they belong to a male or female-headed household.

Region	Male holder				Female holder			
	Male active holding members		Female active holding members		Male active holding members		Female active holding members	
	Total	% member of farmer organisation	Total	% member of farmer organisation	Total	% member of farmer organisation	Total	% member of farmer organisation
