

## Guidance for Agro-Ecosystem/Landscape Group Coordinators

In Day 1 of the workshop, the presentations and working groups focused on the question “What are the issues?” Now, in Day 2, the focus will be on answering the questions “What are the solutions? What should be our priorities designing and implementing agriculture and NRM investment projects under a cc and agro-ecosystem perspective?”

### *Discussion Instructions:*

1. What is your experience? Draw upon project experience and contribute to the group your understanding of an agro-ecosystem perspective based upon your project experience.

<b>Agriculture &amp; NRM Investment Elements</b>	<b>WB Project experience relevant to the chosen agro-ecosystem – mention specific projects.</b>	<b>Relevant FAO tools, methods and projects</b>

Infrastructure		

2. Are there any cases for replication or scaling up?
3. What are the knowledge gaps if any, in your experience?

4. Each working group will receive printed copies of all of the Day 1 Presentations. Draw upon the group presentations from Day 1 and your own additional experience to inform this Day 2 Working Group discussion. Feel free also to draw upon any of the presentations from both Day 1 and Day 2.
5. Please formulate key investment priorities and areas for future collaboration between WB and FAO.

<b>Agriculture &amp; NRM Investment Elements</b>	<b>Priority areas for future investment by agro-ecosystem.</b>	<b>Specific potential areas for collaboration between FAO and WB.</b>
