

Break-out groups

Forest governance scenarios 2030

Yurdi Yasmi

FAO Regional Office for Asia and the Pacific

27 September 2018

GROUP TASK

1. In the **'business as usual future'** how will forest governance look like in 2030?
2. Define an **'aspirational scenario'** in 2030 for forest governance; what are the barriers to achieve it; and what key actions or strategies to address these barriers?
3. What can be a **'disruptive future'** in 2030 for forest governance; what key actions or strategies we need to put in place to avoid it?
4. Which scenario will likely prevail for forest governance in 2030 and why?
