Rome, 9–13 July 2018

Side event

A SUSTAINABLE FUTURE FOR AQUACULTURE

Wednesday, 11 July 2018 – 12:45-14:15

Austria Room (C237)

Aquaculture is a relatively recent addition to the global agriculture industry but offers ways to reduce hunger, reduce poverty, and provide care for our land and oceans. Our side event during COFI 33 will give an overview to the industry, with a focus on how feed for sustainable aquaculture can be sourced. Speakers include industry experts on seafood markets and feed manufacture and delegates will take away proposed actions to support this vital industry in achieving a sustainable future.

Sandwich lunch and refreshments provided.
