

FAO'S CORPORATE ENVIRONMENTAL RESPONSIBILITY (CER)

FOOD WASTE INITIATIVE - 5 STEPS TO FOLLOW:

1

SORT YOUR FOOD WASTE

After finishing your meal, take your tray and take a moment to sort your food waste into the four indicated categories.

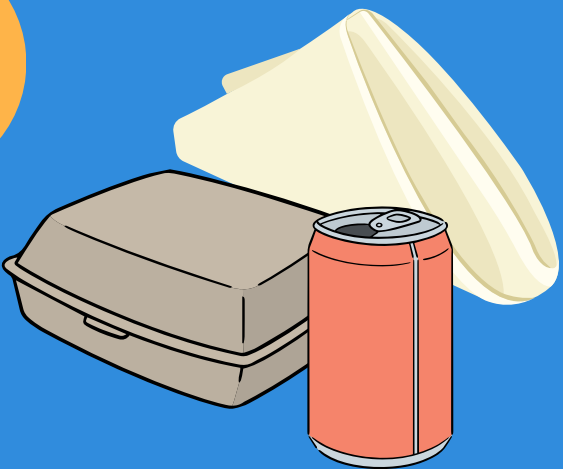

2

HANDLING MIXED MEALS

If your meal is a mix, put it in the category with the majority ingredient. For example, pasta with tomato sauce goes into the "Cereals and Pulses" bin.

3

NON-FOOD WASTE

This initiative focuses on food waste. Please use the separate bins provided for non-food items like napkins or cans.

4

RETURN YOUR TRAY

After sorting your waste, please return your tray to the designated area, so it can be sanitized and reused.

5

SPREAD THE WORD

Share this initiative with your friends and colleagues. This initiative plays a vital role in measuring and reducing food waste at FAO. Together, we can make a significant impact.
