

CALL FOR EXPRESSIONS OF INTEREST

National Project Personnel (NPP) and Personnel Services Agreements (PSA) Professional and General Services (for Philippines Nationals only)

Vacancy No. 2615

Deadline for Applications: 16 September 2014

FAO's vision is a world free of hunger and malnutrition where food and agriculture contributes to improving the living standards of all, especially the poorest, in an economically, socially and environmentally sustainable manner.

The FAO project “**Improvement of feeding and food management efficiency in aquaculture production in the Philippines**” contributes to the technical, social and environmental issues related to feed formulation, production, on-farm feeding and feed management strategy of two major fish species (milkfish and Nile tilapia) cultured in the Philippines:

In view of project requirements, we are currently seeking qualified candidates for a number of profiles in various locations in the Philippines as indicated below.

Who are we looking for:

<i>JOB TITLE</i>	<i>DUTY STATION</i>
Aquaculture Production and Management Expert	work from home with visit to the project sites
Training and BMO Development Expert	work from home with visit to the project sites
Demonstration and Piloting Expert (tilapia trials)	work from home with visit to the project sites
Demonstration and Piloting Expert (milkfish trials)	work from home with visit to the project sites

Candidates for the Aquaculture Production and Management Expert should meet the following requirements:

The candidate should have a post-graduate degree in agriculture, fisheries or other relevant subjects.

At least **10 years** research and practical experience in aquaculture development and management especially for milkfish and tilapia.

Candidates for the Training and BMP Development Expert should meet the following requirements:

The candidate should have a post-graduate degree in agriculture, fisheries or other relevant subjects.

At least 10 years research and practical experience in development of better management practices on aquaculture feed production and management especially for milkfish and tilapia.

Candidates for the Demonstration and Piloting Expert (tilapia trials) should meet the following requirements:

The candidate should have a post-graduate degree in agriculture, fisheries or other relevant subjects.

At least **10 years** research and practical experience in development of better management practices on aquaculture feed production and management especially for tilapia.

Candidates for the Demonstration and Piloting Expert (milkfish trials) should meet the following requirements:

The candidate should have a post-graduate degree in agriculture, fisheries or other relevant subjects.

At least **10 years** research and practical experience in development of better management practices on aquaculture feed production and management especially for milkfish.

Candidates should meet the following general competencies:

- Results Focus
- Teamwork
- Communication
- Building Effective Relationships
- Knowledge Sharing and Continuous Improvement

Additional Information:

All candidates should adhere to FAO values of Commitment to FAO, Respect for All and Integrity and Transparency. Applicants are expected to commit to FAO's mission and strategic objectives.

How to apply:

All applications are to be made through FAO's iRecruitment system. Click on the link below to access iRecruitment, complete your online application and apply for this Call for Expression of Interest.

<http://www.fao.org/employment/irecruitment-access/en/>

In order for your application to be properly evaluated, please ensure that all sections of your iRecruitment account are completed. Incomplete applications will not be evaluated. Please include a letter of motivation with your application indicating the profile/s and location/s that you are interested in.

Should applicants encounter any problems in accessing iRecruitment or completing their online profile, they are encouraged to contact irecruitment@fao.org.

All applications will be reviewed and qualified applicants will be contacted for a competency-based interview. Only shortlisted applicants will be notified.
