

Food and Agriculture Organization of the United Nations

Vacancy Announcement No: IRC5097

Issued on: 9 January 2018

Deadline For Application: 30 January 2018

Position Title:	Senior Land And Water Officer	Grade Level:	P-5
		Duty Station:	Egypt, Cairo
Organizational Unit:	Regional Office for the Near East and North Africa (Cairo), RNE	Duration *:	Fixed term: 2 years, with possibility of extension
		Post Number:	2002077
		CCOG Code:	1R

The length of appointment for internal FAO candidates will be established in accordance with applicable policies pertaining to the extension of appointments

**Qualified female applicants and qualified nationals of non-and under-represented member countries are encouraged to apply.
Persons with disabilities are equally encouraged to apply.**

All applications will be treated with the strictest confidence.

The incumbent may be re-assigned to different activities and/or duty stations depending on the evolving needs of the Organization.

Organizational Setting

The Regional Office for RNE is responsible for leading FAO's response to regional priorities for food security, agriculture and rural development through the identification, planning and implementation of FAO's priority activities in the region. It ensures a multidisciplinary approach to programmes, identifies priority areas of action for the Organization in the Region and, in collaboration with departments and divisions at Headquarters, develops, promotes and oversees FAO's strategic response to regional priorities. RNE also advises on the incorporation of regional priorities into the Organization's Programme of Work and Budget and implements approved programmes and projects in the region, monitors the level of programme implementation and draws attention to problems and deficiencies. RNE develops and maintains relations with region-wide institutions including the Regional Economic Integration Organizations (REIOs). The Regional Office supports regional policy dialogue on food security, agriculture and rural development issues, facilitates the emergence of regional partnerships, and supports capacity development and resource mobilization for food security, agriculture and rural development in the region.

The post is located in Cairo, Egypt.

Reporting Lines

The Senior Water Resources Officer reports to the Regional Strategic Programme Coordinator under the technical guidance of the relevant Division in HQ.

Technical Focus

Water Resources and Irrigation.

Key Results

Leadership and technical policy expertise for the planning, development and implementation of Regional Programmes of work, projects, products, services in accordance with Regional objectives and FAO Strategic Objectives.

Key Functions

- Plans, manages, or leads highly specialized or multi-disciplinary teams, leads, coordinates, and/or participates in Regional committees, project teams, and working groups, and/or provides technical leadership/secretariat services on technical networks and/or international technical policy and standard setting bodies;
- Analyzes global and country specific requirements and relevant technical issues to provide critical input into the FAO Strategic Objectives, Programme of Work, work plans and the supporting budgets and/or resourcing strategies;
- Implements and monitors programmes of work involving the development of the approach, evidence based strategies, and related tools, methodologies and the supporting system/database, monitoring and reporting frameworks;
- Conducts, designs and oversees research and analysis activities to support the development of technical standards, international instruments, innovation, technical reports, publications and/or on-going programme development as well as the provision of technical and/or policy advisory services;
- Provides technical and policy advice to Member countries and technical support to decentralized offices in the development and implementation of their programmes;
- Leads and/or collaborates in, provides technical backstopping to and ensures the quality / effectiveness of capacity development and knowledge sharing activities within member countries such as policy support, organizational development and individual learning events including preparation of related information, learning, on-line tools;
- Represents the Organization at international meetings and conferences, identifies and implements strategic

partnerships, advocates best practices and increased policy dialogue and develops and negotiates effective working relationships/consensus and agreements with international and national stakeholders;

- Leads and/or participates in resource mobilization activities in accordance with the FAO Corporate strategy.

Specific Functions

- Serves as focal point and leads regional efforts in the collection and regular updating of key information and data on water use and irrigation in agriculture and advises the Agriculture and Land and Water Use Commission for the Near East (ALAWUC/NE) especially in the fields of policy, applied research, technical seminars and training and promotion of integrated land and water development programmes, and serves as its Secretary;
- Provides regional perspective and priorities in support to FAO's periodic planning and programming exercises and the reviews of FAO's strategic framework, and contributes to the implementation of the Programme in the field of water resources and irrigation.
- Supports FAO's Inter-Departmental Working Groups (IDWG) and Regional and Sub-Regional Multi-Disciplinary Teams (MDT) in the development of an integrated and coherent approach to sustainable agriculture development, food security and the elimination of rural poverty in the region;
- Leads water resources and irrigation related activities in the Region, including by fostering collaboration between member governments and regional governmental and non-governmental organizations, ensuring the necessary consistency of approaches, through consultations with the Land and Water Division and relevant Functional Technical Networks;
- Contributes to agriculture sector reviews from the perspective of water resources management and advises on national/regional needs and projects or the development, management and conservation of water resources;
- Performs other related duties as required.

CANDIDATES WILL BE ASSESSED AGAINST THE FOLLOWING
