

Food and Agriculture Organization of the United Nations

Vacancy Announcement No: IRC5603

Issued on: 21 June 2018

Deadline For Application: 12 July 2018

Position Title:	Forestry Officer (Global Forest Resources Assessment)	Grade Level:	P-4
		Duty Station:	Italy, Rome
Organizational Unit:	Forest Policy and Resources Division, FOA	Duration *:	Fixed term: 2 years, with possibility of extension
		Post Number:	0827525
		CCOG Code:	1H06

The length of appointment for internal FAO candidates will be established in accordance with applicable policies pertaining to the extension of appointments

Qualified female applicants and qualified nationals of non-and under-represented member countries are encouraged to apply.

Persons with disabilities are equally encouraged to apply.

All applications will be treated with the strictest confidence.

The incumbent may be re-assigned to different activities and/or duty stations depending on the evolving needs of the Organization.

Organizational Setting

The Forest Policy and Resources Division leads FAO's work in promoting sustainable forest management and providing leadership on the environmental, social and economic dimensions of forestry, including its contributions to poverty reduction and food security and nutrition. It liaises with member countries, civil society and the private sector in aspects ranging from development of effective forest policies to forest conservation and management issues, and strengthens the role of forests in climate change mitigation and adaptation. The Division also collects, analyses and disseminates information on the world's forest resources and on the production, trade and consumption of wood and non-wood forest products.

The post is located in the Global Forest Resources Assessment Team, FOA.

Reporting Lines

The Forestry Officer reports to the Team Leader, **Global Forest Resource Assessment** Team, under the overall guidance of the Director, FOA, and in close collaboration the team members as well as with other units in FAO.

Technical Focus

The incumbent will coordinate the analytical work of the Global Forest Resources Assessment, bringing together data reported by countries, independent remote sensing analysis and data from third parties, and generate statistical outputs and information products.

Key Results
