

## FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

### Terms of Reference for Consultant ■/PSA □

Minimum number of years of relevant experience required: 1yr  3yrs  5yrs  12+yrs

<b>Job Title:</b>	International consultant in adaptation of Agriculture to climate change	
<b>Division/Department:</b>	FAO Regional Office for Africa	
<b>Programme/Project Number:</b>	"Building capacity of ECOWAS for the implementation of ECOWAP" /GCP/RAF/461/SPA	
<b>Location :</b>	Abuja, Nigeria	
<b>Expected Start Date of Assignment:</b>	As soon as possible	<b>Duration:</b> 11 Months

#### GENERAL DESCRIPTION OF TASK(S) AND OBJECTIVES TO BE ACHIEVED

In West Africa, agriculture remains highly vulnerable to the adverse effects of climate change and variability as it is mainly rainfed. The implementation of ECOWAP requires that emerging issues related to the resilience of vulnerable populations and adaptation of agriculture to climate change are taken into account. The integration of these emerging issues in policies, strategies and projects implemented under ECOWAP requires the involvement of all stakeholders. Project formulation and dissemination and sharing of experiences of these actors and lessons learned are ECOWAS priorities.

In order to support the ECOWAS Directorate of Agriculture and Rural Development to address issues of adaptation of agriculture to climate change, FAO recruits a climate change expert within the framework of the project "Building capacity of ECOWAS for the implementation of ECOWAP". This project is funded by the Spanish Agency for International Development Cooperation (AECID) and implemented by FAO.

#### Duties and Responsibilities

The incumbent will contribute to the achievement of project goals and provide support to improve the quality of products and services to be delivered under the project. In particular, s/he will support the execution of the tasks below:

- Identify and define the priorities required on climate change within the framework of the implementation of ECOWAP / CAADP interventions;
- Facilitate technical dialogue with countries requesting support for the formulation of investment projects related to the adaptation of agriculture to climate change;
- Provide technical support and advice to the ECOWAS Director of Agriculture and Rural Development on the challenges and programming of actions related to climate change in the implementation of ECOWAP.
- Organize and conduct seminars / workshops to enhance analytical and methodological capacities of national experts from the member countries of ECOWAS and the West African regional organizations capabilities. This activity will be conducted in collaboration with other FAO initiatives working on climate change.
- Strengthen the capacity of national and regional experts in estimating costs and prioritizing adaptation options in agriculture to climate change. This activity will be conducted in collaboration with other FAO initiatives working on climate change and the formulation of investment agricultural projects.
- Drafting of detailed terms of reference for Consultants to be mobilized for the formulation of investment projects for the operationalization of the ECOWAP.
- Participate in the review of the policy and institutional environment for the implementation of regional and national investment's project for Agriculture adaptation to climate change.
- Prepare guidance and recommendations to taking into account climate change in the implementation of

## ECOWAP

- Participate as a member of the multidisciplinary team in the preparation of detailed regional investment projects;
- Organize and facilitate sessions of methodological discussion, analysis, evaluation and validation of investment project documents formulated for the mobilization of resources from technical and financial partners;
- Facilitate a network of knowledge sharing, best practices and sharing of experiences on adaptation of agriculture to climate change through the development and dissemination of briefings focused on climate change.
- Strengthen the coordination of FAO programs on climate change.
- Perform any other activities related to the project objectives and mission of the adaptation agriculture to climate change Expert in ECOWAS.

The consultant will work under the direct supervision of the Coordinator of GCP/RAF/461/SPA "capacity of ECOWAS for the implementation of the ECOWAP" project based in Lomé (Togo). He will work closely with the ECOWAS Director of Agriculture and Rural Development. He or she will support the strengthening of activities and synergies between ECOWAS departments working on environment and agriculture.
