

POSITION TITLE:	Statistician (Greenhouse Gas (GHG) Assessment Framework for emissions and mitigation potentials in agriculture, forestry and fisheries)	GRADE LEVEL:	P-3
ORGANIZATIONAL UNIT:	Climate, Energy and Tenure Division (NRC) Natural Resources Management and Environment Department	DUTY STATION:	Rome, Italy
		DURATION *:	2 years
		POST CODE/N^o:	unidentified
		CCOG CODE:	1M06

Applications from qualified women as well as from qualified nationals of non-and under-represented member countries are encouraged

DUTIES AND RESPONSIBILITIES

Under the overall guidance of the Director, NRC, and the supervision of the Programme Coordinator of the project "Making land use and agriculture part of the solution – Building capacities for Agriculture Mitigation" (MICCA) and a Senior Statistician, ESS, the incumbent will undertake the gathering, standardization, compilation and analysis of the data and information provided from member states and partners and oversee the upload of the data and information onto the central data portal. In particular, the incumbent will:

- review methodologies of current statistical information reporting systems and prepare standardised statistical information reporting processes and requirements.
- develop protocols and guidelines to assist data compilers to gather, process, validate and provide adequate data and metadata.
- review existing statistical information and reporting systems with a view to identifying inconsistencies and inadequacies in data.
- identify and fill major data gaps or coefficients which are required to complete components of the assessment such as the life cycle analysis.
- process and analyse the data provided by national institutions and partners.
- in collaboration with project partners, undertake analysis of regional and global GHG datasets for different sectors and agricultural products.
- support the preparation of guidelines, good practice manuals and distance learning tools and related training materials.
- support the organization and act as facilitator in the regional training workshops.
- oversee the development of the Web portal, including establishing required functionality, preparing technical materials and supporting the development of the content.
- perform other related duties as required.

MINIMUM REQUIREMENTS

Candidates should meet the following:

- University degree in statistics, economics, or in a field closely related to environment supplemented by training in quantitative methods
- Five years of relevant experience in national or international organizations in the collection, compilation or analysis of statistics
- Working knowledge of English, French or Spanish and limited knowledge of one of the other two

SELECTION CRITERIA

Candidates will be assessed against the following:

- Extent of experience in environmental statistics or related field, including at the international level
- Demonstrated experience in data compilation, validation and analysis (especially in regards to developing regional and global products)
- Level of knowledge of the use of econometric tools and statistical software (e.g. SAS, STATA, GAMS, SPSS)
- Good drafting skills and ability to present statistical materials
- Experience in developing and implementing training and capacity building programmes would be an asset

Please note that all candidates should possess computer/word processing skills and should be capable of working with people of different national and cultural backgrounds.

** The length of appointment for internal FAO candidates will be established in accordance with applicable policies pertaining to the extension of appointments*
