The Biosafety Clearing-House

of the Cartagena Protocol on Biosafety
to the Convention on Biological Diversity

Giovanni Ferraiolo - CBD Secretariat
Welcome to the BCH Central Portal

The Biosafety Clearing-House (BCH) is a mechanism set up by the Cartagena Protocol on Biosafety to facilitate the exchange of information on Living Modified Organisms (LMOs) and assist the Parties to better comply with their obligations under the Protocol. Global access to a variety of scientific, technical, environmental, legal and capacity building information is provided in the six official languages of the UN.

BCH account holders can create and manage records in the BCH by signing in through the Management Centre (Registering Information) section.

CPB Art 1 - Objective: In accordance with the precautionary approach contained in Principle 15 of the Rio Declaration on Environment and Development, the objective of this Protocol is to contribute to ensuring an adequate level of protection in the field of the safe transfer, handling and use of living modified organisms resulting from modern biotechnology that may have adverse effects on the conservation and sustainable use of biological diversity, taking also into account risks to human health, and specifically focusing on transboundary movements.
The Biosafety Clearing-House (BCH) is a mechanism set up by the Cartagena Protocol on Biosafety to facilitate the exchange of information and assist the Parties to better comply with their obligations under the Protocol; without prejudice to the protection of confidential information, each Party shall make available to the BCH any information required [...] under this Protocol (Art. 20).
Validation of information:

- **National records:** directly published by National Focal Points (BCH-NFP - one per country identified directly by the Governments), or submitted by their assistants and then validated by the BCH-NFP

- **Reference Records:** submitted by any BCH user and validated by the CBD Secretariat (guided by the principles of inclusiveness, transparency and equity)
• **National (official ) records:**

National Biosafety Website or Database / Competent National Authorities / Biosafety Laws, Regulations, Guidelines & Regional and International Agreements / Country's Decisions or any other Communications / Submissions from Parties & other Governments / Risk Assessments Generated by a Regulatory Process / Biosafety Experts and report on their assignments
• **Reference records:**

*Capacity Building Activities & Needs Assessments / Biosafety Organizations & Laboratories for LMO detection / Submissions from relevant organizations / Virtual Library (BIRC) / BCH News / Risk assessments generated by an independent or non-regulatory process / **Living Modified Organisms (LMOs)** / Genetic elements / Organisms*
To date:

the Cartagena Protocol has 168 Parties

196 Countries Worldwide

the Convention on Biological Diversity has 194 Parties

National Records: submission validated by Governments through BCH National Focal Points (one per country)

CPB PARTIES

CPB NON-PARTIES

INCLUDED (Mandatory)

ACCEPTED (Voluntary)

INDUSTRY /
ASSOCIATIONS /
ACADEMIA / RESEARCH

NOT INCLUDED
### Type of National Records:

<table>
<thead>
<tr>
<th>LAWS &amp; REGULATIONS</th>
<th>DECISIONS</th>
<th>RISK ASSESSMENT</th>
</tr>
</thead>
<tbody>
<tr>
<td>NFPs / Website &amp; Database / Competent National Authorities / Biosafety Experts</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Intended use of LMOs:

<table>
<thead>
<tr>
<th>FOOD</th>
<th>FEED</th>
<th>PROCESSING</th>
</tr>
</thead>
<tbody>
<tr>
<td>INTRODUCTION INTO THE ENVIRONMENT</td>
<td>Transit/Pharmaceuticals/Cont. Use</td>
<td></td>
</tr>
</tbody>
</table>

### Type of LMOs:

<table>
<thead>
<tr>
<th>PLANTS</th>
<th>ANIMALS</th>
<th>MICROORGANISMS</th>
<th>Any LMOs as defined by Art. 3 CBP</th>
</tr>
</thead>
</table>

### Scale of the risk assessment:

- Intentional transboundary movement for intentional introduction into the environment of the Party of import
- Domestic use, including placing on the market
- Any risk assessment generated by national regulatory process

Legend:  
- INCLUDED (Mandatory)  
- ACCEPTED (Voluntary)
...of special interest for this webinar:

• **National (official) records:** decisions on environmental releases of LMOs (including field trials), and/or placing on the market + any related risk assessments

• **Reference records:** Living Modified Organisms (LMOs) / Genetic elements / Organisms
• **Search by:** decision / country / region / LMO / trait / use / date / keyword

• **Browse by:** raw data / groups / matrix / maps

• **Receive updates by:** list server / RSS feeds (main categories of records or tailored searches)
LMO quick-links:  http://bch.cbd.int/resources/quicklinks.shtml)
The fastest way to reach the BCH page where information on a specific LMO is available (e.g. LMO description, countries' decisions, links to other databases, detection methods, risk assessments, etc.)
Current status* (1):

- **Worldwide open**: mandatory contributions for Parties, voluntary for non-Parties;
- As-of-today the **largest repository of LMOs information**: 404 Living Modified Organisms / 433 Genetic elements / 202 Organisms (...and counting!)
- **Financial support granted** by COP-MOP core budget
- **Translated in all 6 UN official languages**

(*as of 27/10/2014)*
Current status* (2):

• 367 Competent National Authorities registered by 150 countries
• 1350 LMOs decisions registered by 46 countries
• 1075 official risk assessments by 37 countries
• Approx. 300 biosafety-related organizations registered
• Over 170,000 visits by 110,000 visitors in the past year (Oct 2013-2014)

(*as of 27/10/2014)
COP-MOP 7 (Rep. of Korea, September 2014):

• requested the Secretariat to continue its collaboration with other biosafety databases and platforms, including those of the FAO, other clearing-houses of the Convention and the OECD;

• urged Parties and invited other Governments to inform their representatives in other international forums of the possibility of retrieving electronically all data registered in the Biosafety Clearing-House in order to make them available through other related websites;
