

CCMAS

Codex Committee on

Methods of Analysis and Sampling (CCMAS)

Webinar series

Online | **23, 24, 25 November 2020**

The objective of this series of webinars is to provide an update on the status of work in CCMAS electronic working groups (EWGs) and work by drafting countries.

With expert presentations from countries leading the work, participants will gain an insight into the status of each issue, the main areas that remain to be resolved and the work that will be undertaken in the EWGs, or by drafting countries, before the next plenary session of the committee.

The sessions on the EWGs will be preceded on Day 1 with an update from the Standards Development Organizations (SDOs) on their latest work in the field of methods development.

The webinars will also be an opportunity to engage with the experts via pre-webinar surveys and live question and answer sessions and learn more about each topic.

Virtual event details: Monday 23 November 13:00 CET; Tuesday & Wednesday 14:00 CET
Zoom registration is required
