- Objective:** To generate and share knowledge and information on nutrition and health behaviours and practices through nutrition education with vulnerable groups from differing livelihood sectors.
- Key partners:** Ministry of Environment, Agriculture and Climate Change, Nutrition Cluster and Scaling Up Nutrition movement.
- Beneficiaries reached:** The training material developed will reach an estimated 20 000 people benefitting from cash-for-work activities and 31 500 smallholder crop producers supported with comprehensive livelihood packages.
- Activities implemented:**
- Drafted, designed and finalized five Nutrition and Food Safety Education for Livelihoods training products in both English and Somali for targeted communities: Facilitator’s Guide, Nutrition Champion’s Booklet, Key Messages Booklet, Picture Aid Training Cards and Seasonal Calendars.
 - Conducted two consultation workshops with governmental and non-governmental actors to finalize the development of the training materials.
 - Drafted a nutrition education delivery strategy following a training for trainers methodology to disseminate nutrition and food safety messages for positive behaviour change.
- Results:**
- Developed context specific nutrition and food safety education materials to be used by Nutrition Focal Points, Nutrition Champions and beneficiary communities.
 - Facilitated consultation and collaboration among United Nations agencies, international and local Non-governmental Organizations implementing nutrition-sensitive livelihood programmes and other technical institutions for the development of nutrition and food safety messages for livelihood zones.
 - Developed a nutrition education delivery strategy that ensures the sustainability of the project, by following a training for trainers methodology.
