

## FOCUS

### What are the links between Livestock, Livelihoods and Human nutrition?

From the 5<sup>th</sup> to 7<sup>th</sup> of November 2014, a regional workshop on Livestock and human nutrition organised by FAO's Regional Resilience, Emergency and Rehabilitation Office for West Africa/Sahel (REOWA) was held in Dakar. During three days, nutrition and livestock experts coming from 6 different countries discussed the different impact pathways between livestock and human nutrition in order to maximize the nutritional impacts of livestock interventions and to reinforce collaboration between these two sectors. ## NEWS

### Integrated programming at the centre of debates during the Technical Meeting on Nutrition

*Implementing an integrated program: how to do it? what does it mean? What are the links between nutrition and resilience?* were among the issues discussed during the Technical Meeting on Nutrition (TMN) organised by the Emergency Network on Nutrition (ENN) from the 6<sup>th</sup> to 8<sup>th</sup> of October 2014 in Oxford. Bringing together professionals from various backgrounds, this event enabled to share knowledge, experiences and technical learning on nutrition specific and nutrition sensitive programmes in emergencies and high burden contexts. ### Two sub-national training workshops on integrating food security and nutrition programming in Chad

*Working together to reduce malnutrition and to strengthen resilience:* a common goal for the participants of the two workshops on integrating nutrition and food security held from 8<sup>th</sup> to 10<sup>th</sup> October in Guéra and from 13<sup>th</sup> to 15<sup>th</sup> October in Barh El Gazel region. Modelled on the regional training workshop which took place in June in Senegal, these two events were jointly organised and facilitated by Oxfam-ACF-REACH-FAO with the financial support from the FAO capacity building project. The two workshops gathered more than 70 people with various backgrounds. [Read more.](#)

## Speaking the same language: national workshop in Niger on integrating nutrition and food security, 28-30 October

More than 50 people gathered in Niamey to discuss multisectoral causes of malnutrition in order to enhance collaborations to reduce malnutrition. Organised by the FAO Niger office and jointly prepared and facilitated by FEWSNET, ACF, CRS, the Niger Red Cross, IRC, SAP and VSF the national training workshop built capacities of practitioners and partners in integrating nutrition in food security programs in order to maximize impacts on nutrition. ## NEW RESOURCES ON THE PROJECT WEBSITE

### NEW! Video about the regional workshops on *Integrating nutrition and food security programming*

This short video provides an overview of the regional training workshops and focuses on activities that aim to foster the intersectoral dialogue such as the problem and solution trees methodology and group work sessions. Take a look at it [here!](#)

### Project brochure summarizing activities and results

Do you want to learn more about the Capacity Building project on Integrating Nutrition and Food Security programming: what has been done and what results have been achieved so far? Consult our [new brochure](#) that provides detailed information illustrated with short stories, figures and quotes.

### Reports of the regional workshops in the Horn of Africa and in the Sahel/West Africa

The reports are now available in French and English respectively. They summarize the different sessions' presentations, activities and key messages. They also share country work plans developed by workshop participants. Download the [Horn of Africa Report](#) and the [Sahel/West Africa Report](#).

### *Enhancing the links between resilience and nutrition* – a contribution to IFPRI's Conference book

The book from the IFPRI's 2020 conference on *Building Resilience for Food and Nutrition Security* is now available. This comprehensive book discusses major issues about strengthening resilience throughout its 21 chapters. Chapter 13 on *Enhancing the links between resilience and nutrition* was written by members of the project team and we invite you to consult it following this [link](#). If you'd like to read the full book, you can download it [here](#).
