UTF /BRA/057/BRA A	Apoyo al Desarrollo Sustentable de la Agricultura Familiar en Brasil	Y	Y	N	Y	JUSTIFICATIVA Além dessas dificuldades, a assistência técnica em geral tem um outro ponto restritivo. Trata-se da visão sociológica dos diferentes programas sobre a posição da mulher na dinâmica da vida comunitária rural, na qual prevalecem perspectivas e sentimentos preconceituosos em relação à sua participação nas relações familiares, no trabalho e na capacitação profissional. Tais elementos reproduzem comportamentos e costumes que aprofundam desigualdades entre homens e mulheres, o que dificulta a efetivação do modelo de desenvolvimento sustentado para o Setor Rural ao não visibilizar aportes produtivos de agricultoras/trabalhadoras familiares. Por isso, o atual modelo de planejamento e as políticas para as áreas de assentamento carecem de revisão, uma vez que as relações sobre gênero, como também a questão dos recursos florestais - meio ambiente -, não são contempladas no desenho dos sistemas produtivos. Atividade 1.3.11 Capacitar técnicos do INCRA em análise e supervisão de planos de desenvolvimento de assentamentos (PDA's) com base e Objetivo Imediato 3 - Definir e im		5		5
