International Year of Pulses: Social Media Cheat Sheet

The United Nations has declared 2016 the International Year of Pulses. FAO has been nominated to implement IYP 2016 in collaboration with Governments, relevant organizations, non-governmental organizations and all other relevant stakeholders.

The IYP 2016 aims to heighten public awareness of the nutritional benefits of pulses as part of sustainable food production aimed towards food security and nutrition.

The term “pulses” is limited to crops harvested solely for dry grain. Pulse crops such as lentils, beans, peas and chickpeas are a critical part of the general food basket. Pulses are a vital source of plant-based proteins and amino acids for people around the globe and should be eaten as part of a healthy diet to address obesity, as well as to prevent and help manage chronic diseases such as diabetes, coronary conditions and cancer; they are also an important source of plant-based protein for animals.

Promoting the year via social media

Help us spread the word on social media! Like/retweet/share IYP 2016 content that is posted on FAO social media accounts via your personal accounts or if you’re an FAO staff member, via other corporate twitter accounts. Complete list of FAO twitter accounts is available from: https://twitter.com/FAOnews/lists/fao-twitter-accounts/members

The hashtag for the year is #IYP2016. Corporate hashtag for FAO remains #UNFAO.

FAO’s main social media accounts are:

- Facebook: https://www.facebook.com/UNFAO
- Main FAO twitter accounts to monitor for #IYP2016 news: https://twitter.com/FAOKnowledge & https://twitter.com/FAOnews
